

VMware Management and Automation Bundle

Automate the Virtualized Datacenter

AT A GLANCE

For a limited time, VMware is offering customers the opportunity to purchase its Management and Automation Bundle consisting of the IT Service Delivery Pack and VMware Site Recovery Manager at a savings of 38 percent.*

The VMware Management and Automation Bundle is the first automation solution for VMware Infrastructure. The solution works with VMware Infrastructure to automate IT service delivery and business continuity, enabling IT departments to:

- Increase IT efficiency.
- Respond more quickly to business requirements.
- Ensure improved compliance with corporate policies.

* The Management and Automation Bundle is offered at approximately a 38 percent savings compared to the price of purchasing the VMware IT Service Delivery Pack and VMware Site Recovery Manager separately.

Pricing and Availability

The VMware Management and Automation Bundle is available for \$USD 3,995 for a two-CPU license, plus \$USD 838.95 for VMware Gold Support and Subscription Services for one year—a savings of 38 percent*. **The VMware Management and Automation Bundle is available from May 19, 2008 through December 15, 2008.**

What's Included in the Bundle

The VMware Management and Automation Bundle consists of:

- The VMware IT Service Delivery Pack which delivers automation for critical IT service delivery processes in the virtualized datacenter. The IT Service Delivery Pack includes 1) VMware Lifecycle Manager and 2) your choice of either VMware Lab Manager or VMware Stage Manager for each licensed host server.
- VMware Site Recovery Manager which makes disaster recovery rapid, reliable and manageable so that organizations can meet their recovery objectives. The solution delivers centralized management of recovery plans and automates the recovery process, allowing organizations to improve recovery for virtualized environments

Find Out More

For more information or to purchase the Bundle, contact your local reseller or call 1-877-4VMWARE (outside of North America dial +1-650-427-5000). Visit www.vmware.com/products to learn more.

VMware Site Recovery Manager + VMware Lifecycle Manager
+ VMware Lab Manager OR VMware Stage Manager

Terms and Conditions

The VMware Management and Automation Bundle is compatible with VMware Infrastructure 3 Standard and Enterprise. It is not currently supported for VMware ESXi, VMware Server, VMware Infrastructure 3 Foundation or VMware Infrastructure 3 Starter.

VMware Management and Automation Bundle product licenses must be deployed on the same host server; individual product licenses cannot be deployed across multiple hosts.

The VMware IT Service Delivery Pack and Site Recovery Manager are included in the VMware Management and Automation Bundle, and your use of these products is subject to the terms and conditions herein, in addition to their respective End User License Agreements. You may choose to deploy either Lab Manager OR Stage Manager on a licensed host, but you cannot both deploy both products at the same time on the licensed host.

Gold or Platinum Support and Subscription Services are required for the VMware Management and Automation Bundle and must be purchased separately. Support and Subscription Services for this VMware Management and Automation Bundle will be eligible for renewal at their original purchase price.

Program Availability

Worldwide.

Eligibility Requirements

All customers are eligible to purchase the VMware Management and Automation Bundle from VMware directly or through any VMware reseller, including OEM partners who currently offer VMware products.
