

# VMware vSphere with P2V Migration Jumpstart

## Overview

This consulting engagement provides an on-site proof-of-concept configuration and knowledge transfer of VMware ESX™ and VMware vCenter™ best practices, as well as physical to virtual (P2V) migrations using VMware vCenter Converter. This jumpstart adds physical to virtual migration activities to the VMware vSphere workshop to maximize your time and dollars.

## Benefits

- Accelerate migration of physical to virtual machines
- Mitigate risk by leveraging experienced consultants and proven best practices
- Provide comprehensive workshop in your environment

## Deliverables

- On-site installation of up to two ESX hosts, one VMware vCenter Server and VMware vCenter Converter
- Interactive workshop on physical to virtual migrations using VMware vCenter Converter
- Best practices knowledge transfer

## Target Audience

Architects and administrators new to VMware ESX, VMware vCenter and VMware vCenter Converter.

## Roles and Responsibilities

- VMware Certified Professional Consultant: Conducts workshop, which includes installation, and best practices for configuration, administration and ongoing infrastructure management
- Customer Project Manager: Plans and coordinates all jumpstart-related IT functions
- Customer Systems Administrator: Responsible for server hardware, storage, and networking
- Customer Server Administrator: Responsible for operating system and applications

## VMware Consolidated Backup Add-on

A one-day VMware Consolidated Backup (VCB) Add-on is available to help you better understand and explore strategies to increase availability and shorten response times when faced with service disruptions and disasters.

## Key Activities
