

Legacy Shavlik Technologies End of Life Information

This document provides information about the End of Life policy of legacy Shavlik products.

Prior to Shavlik Technologies being acquired by VMware, the Shavlik Product Support Policy applied to the products released under the Shavlik brand name. The type of support for a given product release is defined below:

Technical Support	Respond to inquiries via phone, email and forum. Provided by Shavlik's Product Support Team and related technical assistance websites.
XML Updates	Updates of XML data files. Provided on the Shavlik website. Enables assessment and remediation functions for the selected product.
Code Correction	Provided for defects and critical issues.

END OF LIFE DATES

Shavlik NetChk Protect (incl. Shavlik NetChk Basic Edition, Shavlik NetChk Audit Edition, Shavlik HFNetChkPro, Shavlik HFNetChkPro Plus, Shavlik NetChk Protect, Shavlik NetChk Protect Government Edition, Report Server, SNA, Shavlik NetChk Spyware, and Shavlik NetChk vProtect)			
Version	GA Date	Code Correction / Technical Support	XML Updates
6.5.3*	2009/10/21	2010/09/30	2010/12/31
7.0**	2009/06/30	2009/10/31	2010/12/31
7.1	2009/10/06	2009/12/31	2010/12/31
7.2	2009/12/01	2010/05/31	2011/05/31
7.5***	2010/05/04	2010/10/31	2012/03/31
7.6****	2010/10/01	2011/03/31	2012/11/01
7.8	2011/03/01	2012/11/01	2012/11/01
8.0	2011/11/01	Please refer to VMware's Enterprise Application Life Cycle Policy for details.	

***Note 1:** As of January 31st, 2010 Shavlik will no longer provide updates to spyware signatures for NetChk Protect (this affects all versions from v5.8 up to and including v6.5.3). Customers who want to continue using NetChk Protect for spyware protection should switch to NetChk Protect 7.x which includes a full antivirus and antispysware capability.

****Note 2:** NetChk Protect 7.0 is the last release with SQL Server 2000 support as the backend database.

*****Note 3:** NetChk Protect 7.5 is the last release that will support Windows NT4 as a supported platform for patch assessment and deployment.

******Note 4:** NetChk Protect 7.6 is the last release that will support agents on a Windows 2000 platform.

Shavlik NetChk Configure (previously named Shavlik NetChk Compliance)			
Version	GA Date	Code Correction / Technical Support	XML Updates
4.0 ◆	2009/04/07	2009/10/31	2009/10/31
4.1	2009/10/06	2010/01/31	2010/01/31
4.2	2009/12/30	2011/11/01	2011/12/31
4.3 ◆◆	2011/10/25	2013/02/28	2013/02/28

◆ **Note 1:** NetChk Configure 4.0 is the last release with SQL Server 2000 support as the backend database.

◆◆ **Note 2:** The NetChk Configure 4.3 (now rebranded as VMware vCenter Protect Essentials Plus - Configuration Management) dates reflect EOL for this product as a standalone. The product will continue to be available as part of the VMware vCenter Protect Essentials Plus 8.0 solution with an end of general support of 2013/11/01.
