

VMware Infrastructure Upgrade Workshop

Overview

This consulting engagement provides best practice scenarios to upgrade from VMware ESX Server 2.x and optionally from VMware VirtualCenter Management Server 1.x to VMware Infrastructure 3, which includes both components. The workshop provides an understanding of the resources and steps required to determine the upgrade path best suited to your environment.

Deliverables

- On-site upgrade using your own supported server hardware for up to two non-production VMware ESX Server 2.x nodes and one VirtualCenter 1.x Management Agent
- Configuration analysis report based on the Virtual Infrastructure Audit toolkit
- Upgrade best practices knowledge transfer

Target Audience

VMware system administrators or operators who are planning to upgrade their environment within 90 days

Roles and Responsibilities

VMware Certified Professional Consultant

Responsible for the pre-upgrade analysis (offsite) and implementation, migration, virtual machine upgrades, and knowledge transfer (onsite)

Customer VMware Administrator/ Operator

Responsible for preparation of test environment, providing necessary log files, and participating in knowledge transfer activities

Benefits

- Accelerate your upgrade process to VMware Infrastructure 3
- Mitigate risk by leveraging experienced consultants and proven best practices
- Provide an upgrade workshop in your environment
