vmware | **Microsoft**

Accelerate Enterprise Innovation With VMware and Microsoft

Explore the benefits of partnering with two of the most trusted names in enterprise

vmware
Leader in
private cloud

Microsoft
Leader in
public cloud

Enterprise-grade
innovation

A powerful
solution portfolio

Migrate with the virtualization platform used for 85 million workloads[1] and the scalable public cloud used by 95% of Fortune 500 companies.[2]

- Unlock cloud resilience, efficiency and innovation
- Reduce the cost, risk and downtime of migration
- Access a global network of data center locations to optimize disaster recovery

Modernize apps with a 78% increase in operational efficiency,[3] and enable an anywhere workspace with 71% faster download times.[4]

- Develop and modernize apps faster than ever, with access to Azure native services and Kubernetes
- Empower workers wherever they are with market-leading virtual desktop infrastructure
- Leverage a flexible, low-latency SD-WAN architecture to more than 5,000 sites

Access even more benefits like simplified management and an average of 25% lower cloud spend per month[5] using a powerful solution portfolio.

- Integrate with and improve the efficiency of your existing investments
- Leverage a single pane-of-glass view of operations across cloud and on-premises
- Scale globally with Azure VMware Solution, available in regions worldwide
- Reduce the costs of vendor sprawl with more than a dozen supported solutions

As more enterprises put agility first, some are more successful than others. Only enterprises that are proactively driving change will be able to gain competitive advantage.

To help you take a more innovative stance, we've built a secure foundation for your optimal cloud environment.

Microsoft recognized as
VMware's 2020 Global Partner of the Year
for Technology Innovation

VMware and Microsoft's portfolio of joint solutions can help drive your enterprise to the cutting edge of innovation.
