

Advanced Design NSX-T Data Center 2.4

Exam Details (Last Updated: 12/13/2019)

The Advanced Design NSX-T Data Center 2.4 exam (3V0-41.19) which leads to VMware Certified Advanced Professional – Network Virtualization 2020 certification is a 50-item exam, with a passing score of 300 using a scaled method. Candidates are given an appointment time of 100 which includes adequate time to complete the exam for non-native English speakers.

Exam Delivery

This is a proctored exam delivered through Pearson VUE. For more information, visit the [Pearson VUE website](#).

Certification Information

For details and a complete list of requirements and recommendations for attainment, please reference the [VMware Education Services – Certification website](#).

Minimally Qualified Candidate

The minimally qualified candidate should have 1 year of experience designing NSX-T Data Center solutions and 2 or more years designing physical and virtual data centers/networks. Candidates will be adept at documenting requirements, risks, constraints, and assumptions. The successful candidate will likely hold additional industry-recognized IT certifications or accreditation. The MQC should have all the knowledge contained in the exam sections listed below.

Exam Sections

VMware exam blueprint sections are now standardized to the seven sections below, some of which may NOT be included in the final exam blueprint depending on the exam objectives.

- Section 1 – Architecture and Technologies
- Section 2 – Products and Solutions
- Section 3 – Planning and Designing
- Section 4 – Installing, Configuring, and Setup
- Section 5 – Performance-tuning, Optimization, and Upgrades
- Section 6 – Troubleshooting and Repairing
- Section 7 – Administrative and Operational Tasks

If a section is missing from the list below, please note it is because the exam has no testable objectives for that section. The objective numbering may be referenced in your score report at the end of your testing event for further preparation should a retake of the exam be necessary.

Sections Included in the Exam

Section 1 – Architectures and Technologies - There are no testable objectives for this section

Section 2 – VMware Products and Solutions- There are no testable objectives for this section

Section 3 - Planning and Designing

Objective 3.1 - Create a Conceptual Design for NSX-T Data Center

Objective 3.2 - Create a Logical Design for NSX-T Data Center

Objective 3.3 - Create a Physical Design for NSX-T Data Center

Section 4 – Installing, Configuring, and Setup- There are no testable objectives for this section

Section 5 – Performance-tuning, Optimization, Upgrades - There are no testable objectives for this section

Section 6 – Troubleshooting and Repairing - There are no testable objectives for this section

Section 7 – Administrative and Operational Tasks - There are no testable objectives for this section
