

# How to Request Verification of your Kubernetes Certification

## Steps to submit CKA proof

Last Updated: Friday, December 06, 2019

### Details

Only Active/Non-Expired CKA certifications qualify as meeting a Master Specialist – VMware Cloud Native 2019 requirement.

1. Login your [CertManager account](#)
2. Navigate to 'History tab'
3. Click on 'Create other requirement'
4. Expand the 'All items'
5. Click on the Kubernetes credentials you want to submit
6. Confirm the Kubernetes credential and the certification title you would like to get the credit. Click on 'Accept selection'
7. Select the date you are submitting from 'Active Date'
8. Submit the below details you are providing in the 'Notes' section:
  1. Kubernetes certification
  2. Kubernetes certification ID Number
  3. Last Name on the certificate
  4. Certified Date
9. Documentation language is 'English' always
10. **Attach your Kubernetes credential eCertificate by clicking on the 'Select' option**
11. Click on 'Create'
12. Your CKA requirement is submitted
13. Please allow 48-72hrs to receive confirmation on your CKA credential verification.
