BADGE SUPPORT

If you need help with a Certification Path or with Certification Requirements, please contact the Certification Support Team at: certification@vmware.com

CANDIDATE AGREEMENT

The *Candidate Agreement* is a legal document between the candidate and VMware regarding participation in the VMware Certification Program including access to and use of any Program benefit, VMware Certification credentials, or any VMware Certification logo that VMware makes available as part of the Program.

BADGE OVERVIEW

This badge designates advanced knowledge of VMware Cloud on AWS service delivery. Holders of this badge will have broad and deep expertise across VMware's portfolio and hold a current VMware Certified Professional certification in networking and/or data center virtualization. They will have completed the associated training on deploying, configuring, and managing a VMware Cloud on AWS infrastructure.

In this document we show the different paths available to earn the VMC on AWS 2022 badge, depending on what certifications you already hold. You may follow this guide as a learning resource of what is required of you to earn this certification.

FAQs

Why does this badge have a year designator as its version?

Having a year as its certification version allows VMware to better maintain the exam and training content, and more importantly, provides certification candidates to communicate how current their skills are in relation to other certifications.

How do I share my badge?

When you've earned a VMware badge, you will receive an email notification alerting you to claim your badge. When you accept your badge, you'll be brought immediately into a sharing workflow that allows you to share to Facebook, Twitter, and LinkedIn, embed in a personal website, or share over email.

What are the benefits of a badge?

- A single source that combines your credentials and provides a complete overview of your skills.
- Digital badges allow for you to easily share your accomplishments in social media.
- Provides employers with easy, valid verification of your VMware credentials.
