² Forbes article: Why C-Level Need to Think about eLearning and AI, 2017

A skilled IT team is critical for getting the most from your VMware® technology. But we know that sending your team to attend traditional classroom training isn't always an option. VMware On Demand courses solve the problem by offering the convenience and flexibility that both business managers and IT professionals need to complete their training goals.

On Demand Courses Offer:

Free VMware Certification voucher upon completion of most courses

30 days of unlimited access to interactive, modular training

Content equivalent to classroom training

Practice labs delivered through **VMware Lab Connect™**

Why On Demand Courses?

- **No travel required** because this self-paced training can be accessed anytime, anywhere
- **Lab exercises** are the same as those offered in VMware instructor-led classroom courses
- **Many On Demand courses** meet course requirements for VMware Certification and come with a free certification exam voucher where applicable

Start On Demand Courses Today:

VMware On Demand courses are accessed through the VMware Connect Learning and can be purchased individually or as part of an Enterprise Learning Subscription. All courses are activated immediately after purchase, allowing your team to start training right away. To get started, visit the [VMware Connect Learning](#).
