

VMware On Demand Courses

Train When and Where You Want

ON DEMAND COURSES ARE ALSO AVAILABLE WITH AN ENTERPRISE LEARNING SUBSCRIPTION.

There is a direct link between training and your success

- 80% percent of CEOs now believe the need for new skills is their biggest business challenge.
- 72% of organizations believe that eLearning puts them at a competitive advantage.
- 94% of employees would stay longer at a company if it invested in their career development.
- *(1) Harvard Business Review Article, 2019*
- *Brandon Hall Group research*
- *Linked Learning Report*
 - * Exceptions may apply
 - ** Labs may be simulated, demo, or live labs

On Demand training that is convenient and flexible

A skilled IT team is critical for getting the most from your VMware® technology. But we know that sending your team to attend traditional classroom training isn't always an option. VMware On Demand courses solve the problem by offering the convenience and flexibility that both business managers and IT professionals need to complete their training goals.

Our On Demand Courses offer

Courses aligned to a VMware Professional Certification (VCP) will receive a complimentary exam voucher

30 days of unlimited access to interactive, modular training*

Lecture content equivalent to classroom training

Practice labs included **

Why On Demand Courses?

- Many On Demand courses meet course requirements for VMware Certification
- Self-paced training can be accessed anytime, anywhere – no travel required
- Courses include assessments

How to get started

VMware On Demand courses are accessed through the VMware Digital Learning and can be purchased individually or as part of an Enterprise Learning Subscription. All courses are activated immediately after purchase, allowing your team to start training right away. To get started, visit the [VMware Digital Learning](#).
