

# VMware Certified – Cloud Infrastructure Administrator

## CERTIFICATION REQUIREMENTS INTRO

Certification Requirements hold value because they signify that you have undergone the necessary lessons, training, seminars, and hands-on experiences that are required to fill the job.

## LEARN MORE

We welcome you to visit the official VMware Certified - Cloud Infrastructure Administrator certification webpage:

[https://www.vmware.com/learning/certification/vc\\_cloud\\_infrastructure\\_administrator.html](https://www.vmware.com/learning/certification/vc_cloud_infrastructure_administrator.html)

## CERTIFICATION SUPPORT

If you need help with a Certification Path or with Certification Requirements, please contact the Certification Support Team at: [certification@vmware.com](mailto:certification@vmware.com)

## CANDIDATE AGREEMENT

The *Candidate Agreement* is a legal document between the candidate and VMware regarding participation in the VMware Certification Program including access to and use of any Program benefit, VMware Certification credentials, or any VMware Certification logo that VMware makes available as part of the Program.

## CERTIFICATION OVERVIEW

The VMware Certified - Cloud Infrastructure Administrator certification validates an individual's ability to install, configure, and maintain private and hybrid VMware Cloud infrastructure solutions. Job-roles associated with this certification include cloud administrators, cloud engineers, and consultants.

In this document we show the different certification paths available to earn the VMware Certified - Cloud Infrastructure Administrator certification, depending on what certifications you already hold. You may follow this guide as a learning resource of what is required of you to earn this certification.

## Certification Path Requirements

---

### Certification path if you hold no VCP Certifications

1. (Recommended) Gain experience with VMware Cloud infrastructure solutions
2. (Recommended) VCP-DCV certification or equivalent knowledge
3. (Recommended) Attend one or more of the associated training courses:

[VMware Cloud Foundation: Deploy, Configure, Manage \[V5.0\]](#)

[VMware Cloud on AWS: Design, Configure, Manage 2023](#)

[VMware HCX: Deploy, Configure, Manage](#)

[VMware Site Recovery Manager: Install, Configure, Manage \[V8.2\]](#)

[VMware vSphere: Install, Configure, Manage \[V8\]](#)

[VMware vSphere: Operate, Scale and Secure \[V8\]](#)

[VMware vSAN: Install, Configure, Manage \[V8\]](#)

[VMware NSX: Install, Configure, Manage \[V4.0\]](#)

[VMware vSphere with Tanzu: Deploy, Configure, Manage \[V8\]](#)

4. (Required) Review and study the topics and objectives listed in the [Exam Guide \(6V1-11.23\) Beta](#) and pass the qualifying exam:

[VMware Cloud Infrastructure Administrator \(6V1-11.23\) Beta Exam](#)

165 Minutes 98 Questions \$50 USD - This is a beta exam offering for a limited time.

## FAQs

---

### **What is a beta exam?**

A beta exam is a test run of an exam. Beta exam candidates are presented with a larger pool of items around specified topics and performance data of those items is gathered. This performance data provides useful information on the quality of the items and exam. Beta exam results inform a decision on the final production build of the exam as well as recommended passing score.

### **Will I receive a score report at the end of my exam?**

Beta exam candidates do not receive their exam score or pass/fail result right away. At the close of the beta exam period, psychometric analysis of the beta exam results is conducted which results in removal of poor performing items, a final production exam forms build and a recommended passing score. Beta exam candidates are notified of their results at the same time after analysis is completed.

### **Why is this exam 165 minutes long?**

Beta exam candidates are given an appointment time for the beta exam of 165 minutes, which includes 150 minutes for the exam and 15 minutes for a mandatory qualifying survey and standard exam NDA. The beta exam is longer to account for the larger item pool. It is important to note that this is the allotted appointment time; however, some beta exam candidates will find that they will not need the entire 165-minute block of time and may in fact finish early.

### **Why is there a mandatory qualifying survey being included with this exam?**

The inclusion of a qualifying survey is a standard practice for beta exams. Beta exam candidates are asked to specify their experience performing listed tasks. The survey is used solely for research purposes and has no bearing on the exam content presented to you.
