CANDIDATE AGREEMENT

The *Candidate Agreement* is a legal document between the candidate and VMware regarding participation in the VMware Certification Program including access to and use of any Program benefit, VMware Certification credentials, or any VMware Certification logo that VMware makes available as part of the Program.

CERTIFICATION OVERVIEW

The VCP-VMC 2023 certification validates an earner's ability to identify key components of a VMware Cloud solution, including how to connect and migrate to VMware Cloud (across different hyperscaler partners) and the benefit of VMware Tanzu Kubernetes Grid. Certification earners have demonstrated a fundamental understanding of storage, networking, security, business continuity and disaster recovery, as well as the ability to monitor and troubleshoot, in a VMware Cloud environment.

In this document we show the different certification paths available to earn the VCP-VMC 2023 certification, depending on what certifications you already hold. You may follow this guide as a learning resource of what is required of you to earn this certification.

FAQs

Why does the VCP-VMC 2023 have a year designator as its version?

Data Center Virtualization solutions are frequently updated. Having a year as its certification version allows VMware to better maintain the exam and training content, and more importantly, provides certification candidates to communicate how current their skills are in relation to other certifications.

Do I have to complete the requirements in the order listed?

No, however we strongly recommend that you do so. Also, please note that successfully registering to take an exam does not imply that you meet the certification requirements in full.

How do I share my VCP-VMC 2023 badge?

When you've earned a VMware badge, you will receive an email notification alerting you to claim your badge. When you accept your badge, you'll be brought immediately into a sharing workflow that allows you to share to Facebook, Twitter, and LinkedIn, embed in a personal website, or share over email.
