180K

active users, growing at 5,000 users per month

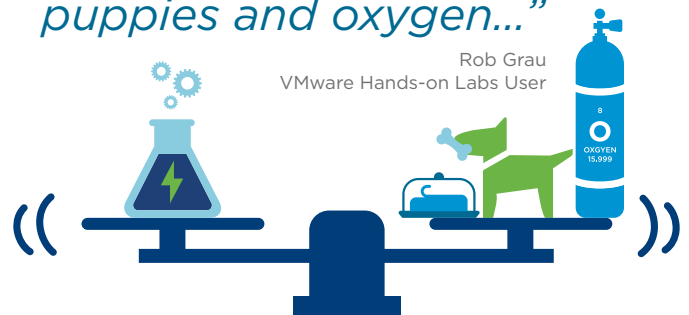

POWERED BY THE VMWARE SOFTWARE-DEFINED DATA CENTER

- Choose from labs for every major VMware product, including VMware vSphere®, Workspace® One™, NSX®, Virtual SAN™, AirWatch®, vCloud® Air™, vRealize®, and many others.
- We use best of breed clouds to power our service, starting with our private cloud—One Cloud.
- We leverage VMware vCloud Air to handle burst loads, Amazon Web Services for cloud-based scale testing, and Google Drive for metrics and content management—all to provide a reliable, high-performance user experience
- > 12 VMworld clouds dedicated to Hands-on Labs

“VMware Hands-on Labs are as important to life as butter, puppies and oxygen...”

Rob Grau
VMware Hands-on Labs User

VMware Hands-on Labs are fast, free, easy, reliable, and comprehensive. Explore the catalog and enroll at <https://www.vmware.com/try-hands-on-labs>.
