

VMware Learning Credits

VMware Learning

VMware Learning delivers training and certification programs designed to help customers achieve their desired business outcomes. We help them build skills and best practices to maximize the unique opportunities VMware technology offers. In addition, we help them gain significant business value through a better understanding of the capabilities of VMware solutions.

Learning Credits

- All credits have a face value of \$100 USD
- The number of Learning Credits needed per course can vary by provider

SKU number

EDU-VMW-CR-1

Leverage Learning Credits for your training needs

VMware customers who invest in training recognize specific benefits from their VMware software and solutions, including accelerated proficiency, faster product adoption, and increased return on investment. These benefits are even more evident when managed by VMware certified IT staff.

VMware Learning Credits allow customers to prepay for VMware training and certification. Learning Credits are available as a standalone purchase. Customers can schedule training when and how they need it, helping to manage costs and improve allocation of training dollars.

Benefits of Learning Credits

- **Cost Management:** With funds allocated at the time of purchase, customers can better manage their training costs.
- **Flexibility:** Credits are valid for onsite, in-person, and online courses offered directly from VMware; Enterprise Learning Subscriptions; and VMware certifications.

How Learning Credits work

- VMware Consulting Credits are not available for purchase by or on behalf of U.S. federal or territorial government end customers.
- VMware PS Credits currently held by or on behalf of U.S. public sector customers will remain available for redemption in accordance with the terms and conditions in effect when the credits were purchased.
