

At VMworld, our IT subject matter experts (SMEs) shared best practices, lessons learned and implementation tips from their VMware product deployment journeys. These sessions are available on demand using the below links. You can also schedule meetings with an IT SME on specific topics. Contact your account representative or vmwonvmw@vmware.com to schedule.

Breakout Session	Session No.
App Modernization	
How VMware IT Uses Tanzu Application Service (TAS) for VMs to Improve Developer Productivity and App Operations	MAP1077
xPerf Series: vSphere with Tanzu Performance Deep Dive	KUB2323
Digital Workspace	
How VMware IT Manages Virtual Desktops and Apps in a Hybrid Cloud World	DWHV1161
Intrinsic Security	
Advancing Your Cloud Security Journey – Putting All the Pieces Together	ISCS1993
Flexibly SOAR Toward API Functionality with Carbon Black	ISWS1095
How the Hybrid Cloud redefined VMware’s Workspace ONE Access deployment	ISWS1118
How VMware IT Deployed and Adopted VMware Carbon Black Cloud	ISWS1166
How VMware IT Secured Applications Using Service-Defined Firewalls	ISNS1117
How VMware IT Solved Load Balancer Problems with NSX Advanced Load Balancer	ISNS1028
Learn How Your Team Can Master AWS IAM—and Win	ISCS1049
Trusting Zero Trust: How VMware IT Reimagined Security and Resiliency	ISNS1059
XDR EDR: How VMware's Integrations Re-Shape Protecting Your Assets	ISWS2952
Multi-Cloud	
Demos, Deep Dives, and More: Explore Day 2 Operations with VMware vSAN	HCI1121
Extreme Performance Series: Benchmarking and the Cloud	HCP2207
Extreme Performance Series – Monster Workloads on SQL, Oracle, SAP and More	HCP1217
Extreme Performance Series: Performance Best Practices	HCP2206

Extreme Performance Series: vSphere Compute and Memory Schedulers	HCP2583
Innovations in vSphere 7 vMotion: Architecture and Performance	HCP1508
Intuit Story: See Kubernetes, Cloud and Apps with Tanzu Observability	MAP1336
vCenter Performance Deep Dive	HCP1975
VMware Cloud Business Office: Our Secret Weapon for Taming Multi-Cloud Environments	MCOP1119
xPerf Series: Performance Best Practices for VMware Cloud on AWS	HCP1693
