VMware Success 360™
Adoption Accelerators
Expertise is all around you
You’re surrounded by expertise.

VMware Success 360 provides specialized assistance through all the stages of your journey with VMware solutions. Adoption Accelerators help you address a variety of challenges – from onboarding and adoption to consumption and optimization.

You can also leverage VMware expertise through live remote Workshops. In these Workshops, VMware subject matter experts will guide you through a new feature, capability or configuration in your system.

Modular and easy to access, Adoption Accelerators provide a personalized, frictionless, efficient way to get to your desired outcomes.
Get as much or as little help as you need

Adoption Accelerators offer varying levels of support so you get the right amount of help in the right format.

What should I think about before implementing VMware Cloud on AWS?

How do I configure VMware Cloud on AWS?

Can you help me configure my VMware Cloud on AWS?

BUILD
VMware subject matter experts build it for you

Hundreds of resources to help you build new capabilities or adopt new features.
Customize your way to success

Adoption Accelerators are organized into Success Pathways that will get you to your desired outcomes faster.

This example is a Success Pathway to move a business-critical application from an on-premises data center to AWS. The first step is to deploy VMware Cloud on AWS and configure VMware HCX® and VMware vRealize Network Insight™. Afterward, determine your application dependencies, then plan and execute the migration. As demand for the application grows, you may need to optimize your environment.

There are multiple types of assistance available for each of these activities. Click on each box to see why you might select that specific type of assistance.
Find the right assistance

Hundreds of specialized resources are available to help you with onboarding, adopting, consuming, and optimizing your VMware technology. Click on a product below to see example pathways.

Select a Product

- VMware Cloud on AWS
- VMware vRealize Automation
- VMware vRealize Operations
- VMware NSX-T Data Center
- VMware Workspace ONE Unified Endpoint Management
- VMware Tanzu Mission Control
- VMware Cloud Foundation
- VMware vRealize Operations
- VMware NSX-T Data Center
- VMware Tanzu Mission Control
VMware Cloud on AWS

**ONBOARD**
- Onboard VMware Cloud on AWS

**ADOPT**
- Adopt VMware Cloud on AWS - Adopt VMware HCX
- Adopt VMware Cloud on AWS - Adopt VMware vRealize Network Insight

**CONSUME**
- Consume VMware Cloud on AWS - Discover App Dependencies
- Consume VMware Cloud on AWS - Plan Application Migration
- Consume VMware Cloud on AWS - Consume Migration Wave

**OPTIMIZE**
- Optimize VMware Cloud on AWS - Optimize SDDC for Scale

**Pathway**
VMware Cloud on AWS Activation and Workload Migration

1. Onboard VMware Cloud on AWS
2. Adopt VMware Cloud on AWS - Adopt VMware HCX
3. Consume VMware Cloud on AWS - Discover App Dependencies
4. Optimize VMware Cloud on AWS - Optimize SDDC for Scale

**VMware Success 360 | Adoption Accelerators**
VMware vRealize Operations

**ONBOARD**
- vRealize Operations Getting Started

**ADOPT**
- vRealize Operations Common Use Cases

**CONSUME**
- vRealize Operations Day 2 SDDC Operations

**OPTIMIZE**
- vRealize Operations Optimization of a Top-3 Use Case

Pathway
Operations Management for VMware Cloud Foundation
VMware Workspace ONE Unified Endpoint Management (UEM)

- **Onboard**: VMware Workspace ONE UEM Installation Process, Getting Started Wizard, On-Premises Installation
- **Adopt**: VMware Workspace ONE UEM Organization Groups and Smart Groups, Enterprise Integration
- **Consume**: VMware Workspace ONE UEM Windows 10 Modern Management, Mobile Email Management
- **Optimize**: VMware Workspace ONE UEM Intelligence, High-Availability

**Pathway**
Unified Endpoint Management

1. **Onboard**
   - Onboard VMware Workspace ONE UEM Installation Process
   - Onboard VMware Workspace ONE UEM Getting Started Wizard
   - Onboard VMware Workspace ONE UEM On-Premises Installation
   - Onboard VMware Workspace ONE UEM Installation Basics

2. **Adopt**
   - Adopt VMware Workspace ONE UEM Organization Groups and Smart Groups
   - Adopt VMware Workspace ONE UEM Enterprise Integration
   - Adopt VMware Workspace ONE UEM MDM Basics

3. **Consume**
   - Consume VMware Workspace ONE UEM Windows 10 Modern Management
   - Consume VMware Workspace ONE Mobile Email Management
   - Consume VMware Workspace ONE UEM Unified Access Gateway

4. **Optimize**
   - Optimize VMware Workspace ONE UEM Intelligence
   - Optimize VMware Workspace ONE UEM High-Availability
   - Optimize VMware Workspace ONE UEM Disaster Recovery
VMware NSX-T Data Center

Onboard VMware NSX® Data Center

Adopt NSX Data Center for Micro-Segmentation

Consume NSX Data Center for Security

Optimize NSX Data Center Security

Pathway
VMware NSX Micro-Segmentation
VMware Tanzu Mission Control

Pathway
VMware Tanzu Mission Control for Application Modernization

ONBOARD
- Onboard Tanzu Mission Control – Getting Started

ADOPT
- Adopt VMware Tanzu Mission Control – Introduction to TMC

CONSUME
- Consume Tanzu Mission Control – Perform Advanced Management and Access Control of Apps in Production

OPTIMIZE
- Optimize Tanzu Mission Control Custom Policies
Adoption Accelerators are key components of VMware Success 360.
