VMware Success 360™
Adoption Guidance and Workshops
Expertise is all around you
You’re surrounded by expertise.

VMware Success 360 provides specialized assistance through all the stages of your journey with VMware solutions. Adoption Guidance delivers self-service resources to help you address a variety of challenges – from onboarding and adoption to consumption and optimization.

You can also leverage VMware expertise through live remote Workshops. In these Workshops, one of our expert engineers will guide you through a new feature, capability or configuration in your system.

Modular and easy to access, Adoption Guidance and Workshops provide a personalized, frictionless, efficient way to get to your desired outcomes.

Get as much or as little help as you need
Adoption Guidance and Workshops offer varying levels of support so you get the right amount of help in the right format.

What should I think about before implementing VMware Cloud on AWS?

How do I configure VMware Cloud on AWS?

Can you help me configure my VMware Cloud on AWS?

Can you guide me to configure VMware Cloud on AWS?

Adoption Guidance and Workshops

INFORM
Self-service resources

ENABLE
On-demand enablement sessions

GUIDE
Guidance in your environment

Hundreds of resources to help you build new capabilities or adopt new features
### Customize your way to success

Adoption Guidance and Workshops are organized into pathways that will get you to your desired outcomes faster.

This example is a pathway to move a business-critical application from an on-premises data center to AWS. The first step is to deploy VMware Cloud on AWS and configure VMware HCX® and VMware vRealize Network Insight™. Afterward, determine your application dependencies, then plan and execute the migration. As demand for the application grows, you may need to optimize your environment.

There are multiple types of assistance available for each of these activities. Click on each box to see why you might select that specific type of assistance.

#### Pathway for VMware Cloud on AWS Activation and Workload Migration

Find the right assistance

Hundreds of specialized resources are available to help you with onboarding, adopting, consuming, and optimizing your VMware technology. Click on a product below to see example pathways.

Select a Product

- VMware Cloud on AWS
- VMware Cloud Foundation
- VMware vRealize Automation
- VMware vRealize Operations
- VMware Workspace ONE
- VMware NSX-T
- VMware Tanzu Mission Control
VMware Cloud on AWS

Onboard VMware Cloud on AWS

Adopt VMware Cloud on AWS - Adopt VMware HCX
Adopt VMware Cloud on AWS - Adopt VMware vRealize Network Insight

Consume VMware Cloud on AWS - Discover App Dependencies
Consume VMware Cloud on AWS - Plan Application Migration
Consume VMware Cloud on AWS - Consume Migration Wave

Optimize VMware Cloud on AWS - Optimize SDDC for Scale

Pathway
VMware Cloud on AWS Activation and Workload Migration

1. Onboard VMware Cloud on AWS
2. Adopt VMware Cloud on AWS - Adopt VMware HCX
3. Consume VMware Cloud on AWS - Discover App Dependencies
4. Optimize VMware Cloud on AWS - Optimize SDDC for Scale
VMware Cloud Foundation

- Onboard VMware Cloud Foundation Deployment

- Adopt VMware Cloud Foundation
  - Adopt VMware Cloud Foundation Security
  - Adopt VMware Cloud Foundation Managing Hosts and Workload Domains
  - Adopt VMware Cloud Foundation Lifecycle Management and Maintenance Procedures
  - Adopt VMware Cloud Foundation - Use Cases

- Consume VMware Cloud Foundation Migration Strategy

- Optimize VMware Cloud Foundation

Pathway

HCI Private Cloud with VMware Cloud Foundation

1. Onboard VMware Cloud Foundation Deployment
2. Adopt VMware Cloud Foundation
3. Consume VMware Cloud Foundation Migration Strategy
4. Optimize VMware Cloud Foundation
VMware vRealize Automation

**ONBOARD**
- Onboard vRealize Automation - Getting Started

**ADOPT**
- Adopt vRealize Automation - Blueprints
- Adopt vRealize Automation - Tagging
- Adopt vRealize Automation - Service Catalog

**CONSUME**
- Consume vRealize Automation - Day 2 Actions
- Consume vRealize Automation - Integrate with Infoblox for IPAM

**OPTIMIZE**
- Optimize vRealize Automation - Guest Customization with Advance Blueprints
- Optimize vRealize Automation - Integrate with NSX-T Data Center for On-Demand Networking in Blueprints

**Pathway**
Self-Service Provisioning in VMware Cloud Foundation

1. Onboard vRealize Automation - Getting Started
2. Adopt vRealize Automation - Blueprints
3. Consume vRealize Automation - Day 2 Actions
4. Optimize vRealize Automation - Guest Customization with Advance Blueprints
