

VMware Success 360 Enterprise for U.S. Federal Agencies

Continually realize value from your VMware investments

At a glance

VMware Success 360 Enterprise for U.S. Federal Agencies is a success offering that continually guides you through all the stages of your journey with VMware solutions. Delivered by U.S. citizens located on U.S. soil, it provides a consistent way of working with VMware that will help you continually realize value and achieve outcomes faster from your investments.

Key benefits

- Technical Adoption Management provides you with a VMware subject matter expert, advocate and advisor who offers personalized guidance to help you plan, track, measure, and achieve outcomes faster from your VMware technology investments.
- Architectural Guidance helps establish an architectural foundation to help you achieve your business outcomes.
- Accelerators help you tackle specific use cases such as onboarding, adopting, consuming, and optimizing your use of VMware technology.
- Digital Learning helps your team gain new skills to accelerate VMware technology value realization.
- Prioritized and Proactive Support gives you peace of mind with predictive issue prevention and fast, prescriptive problem resolution to maximize productivity and uptime.

Business challenge

Technology adoption is not a single event. It is a continuous journey of innovation with new business opportunities to investigate, new discoveries to be made, and new routes to uncover. Achieving the expected outcomes from technology investments requires identifying the best routes, avoiding roadblocks, constantly monitoring, and measuring progress, and adjusting based on those metrics.

Success requires that both you and VMware have a laser focus on your desired goals and knowledge of what the best steps are to attain them. To do that we must work together.

Service overview

VMware Success 360™ Enterprise for U.S. Federal Agencies is a comprehensive success offering that guides you through all the stages of your journey with VMware solutions. Delivered by U.S. citizens located on U.S. soil, it provides a consistent way of working with VMware that will help you continually realize value and achieve outcomes faster from your investments. There are several components – Technical Adoption Management, Accelerators, Digital Learning and Prioritized and Proactive Support.

Technical Adoption Management

Technical Adoption Management helps ensure your organization is prepared to take full advantage of your VMware investments and achieve your outcomes. Your designated Technical Adoption Manager will work with you up to 2 ½ days per week. Activities include:

- Success planning to identify your business and IT outcomes along with recommendations for technical capabilities and activities needed for success. Your success plan will include relevant Accelerators, Digital Learning, and optional fee-based services, such as Professional Services and additional Technical Adoption Management Services that may be needed to accomplish your goals.
- Technology assessment to identify gaps impeding your progress and provide prioritized recommendations for improvements.

- Solution guidance to develop a future state roadmap that advances your technology objectives based on the assessment of your capabilities and goals.
- Recommendations to improve efficiency, resiliency, security, and sustainability for operational optimization.
- Peer insights that offer periodic comparisons of operations and processes to known best practices of similar organizations, using guidance from our product teams and years of experience.
- Monthly touchpoints to ensure progression of your success plan and that all your VMware Success 360 and VMware services are meeting your needs.
- Executive Business Reviews to report on progress and upcoming milestones for continuous stakeholder alignment.

Architectural Guidance

For optimal performance of your VMware technology investment, it is imperative that you can leverage the right expertise to guide you towards an architectural foundation that will help you achieve your business outcomes. To assist you in this journey, you will have up to 5 working sessions per year with our team of Customer Success Architects where they can provide you with business use case mapping, conceptual design guidance and an architectural risk assessment.

Accelerators

We identified common customer challenges around key areas such as getting started, onboarding, or adoption and organized our assistance into an Accelerator Catalog of self-service resources and workshops based on the outcomes you are pursuing. You will receive:

- Unlimited access to our on-demand resources that help you adopt a feature or build a basic capability. This includes on-demand “how-to” or “use case” videos and webinars to help you implement new features.
- Up to 400 hours per year of remotely delivered personalized workshops from our Accelerator Catalog, with our technical subject matter experts who will guide you through or build for you a new feature, capability, or configuration in your system.

Digital Learning

We believe that access to world class knowledge, when and where you want it, is critical to your long-term success. We help your team gain new skills to accelerate VMware technology value realization with the VMware Success 360 Digital Learning Subscription. It provides you with 24x7 access to intermediate-level courses, lab demos, 'how-to' content, and exam preparation videos for up to 50 users.

Eligibility and restrictions

VMware Success 360 Enterprise for U.S. Federal Agencies is available only for VMware product licenses purchased from the U.S. Federal Price List / GSA Schedule through VMware's authorized Government Dealer.

Active VMware Federal Production Support services are a prerequisite for VMware Success 360 Enterprise for U.S. Federal Agencies.

Services are limited to one Entitlement Account per customer.

Any incremental product spend is subject to additional VMware Success 360 Enterprise fees for the duration of the VMware Success 360 contract. Please contact your account representative for more information.

Prioritized and Proactive Support

VMware Success 360 Enterprise Prioritized and Proactive Support helps you speed issue resolution, minimize downtime, and prevent recurring incidents. It provides unlimited users with:

- Direct routing to senior-level Technical Support Engineers
- Comprehensive cross-product, 24x7 global access with unlimited requests
- Root cause analysis for Severity 1 Support Requests
- [Expedited response times](#) and access to our premium level of [SDK/API Guidance](#)
- Up to 5 Dedicated Support Days per contract year to align a dedicated resource for troubleshooting expertise during upgrades or maintenance windows.
- A designated Support Services Manager in your primary region to oversee your support experience and who will work with you up to 2 ½ days per week to provide weekly support activity reporting and review meetings and critical situation management.
- AI/ML enabled capabilities via VMware Skyline Advisor™ Pro (commercially available service) to assist with proactive, predictive issue identification for problem prevention with enhanced VMware Success 360 Proactive Insights reporting.

Benefits

VMware Success 360 Enterprise for U.S. Federal Agencies provides you with continuous guidance tailored to your goals and objectives which can be scaled up or down based on the technology you are adopting and the speed and routes you want to take in your journey. Our goal is to provide you with a unified, simplified experience with VMware that helps you:

- Achieve outcomes, faster, from your technology investments.
- Adapt as the business changes.
- Take the best next steps toward achieving your goals.
- Continually get value out of the investments you have made.
