

# VMware Success 360 Supported Products

## Quick Reference Guide

### At a glance

This Quick Reference Guide identifies VMware products and solutions supported by VMware Success 360.

### Key benefits

- Success Planning provides personalized guidance to help you track, measure, and achieve outcomes faster from your VMware technology investments
- Accelerators help you tackle specific use cases such as onboarding, adopting, consuming, and optimizing your use of VMware technology
- Digital Learning helps your team gain new skills to accelerate VMware technology value realization
- Prioritized and Proactive Support gives you peace of mind with predictive issue prevention and fast, prescriptive problem resolution to maximize productivity and uptime

### Service Overview

VMware Success 360™ is a success offering built to guide you through all the stages of your journey with VMware products and solutions. VMware Success 360 is continuously growing and is intended to cover the VMware ecosystem across products and franchises. See below for current coverage across VMware products. All services are delivered in English. Please reach out to your sales representative for local language availability.

### Success Planning

VMware Success 360 includes comprehensive Success Planning to achieve your desired business and IT outcomes with VMware products. Success Planning coverage includes the most common product use cases, Accelerators and Digital Learning.

We currently offer Success Planning for products within the following franchises: Multi-Cloud, App Platform, Cloud and Edge Infrastructure, Anywhere Workspace, Security and Networking.

### Architectural Guidance

For optimal performance of your VMware technology investment, it is imperative that you can leverage the right expertise to guide you towards an architectural foundation that will help you achieve your business outcomes. To assist you in this journey, you will have up to 5 working sessions per year with our team of Customer Success Architects where they can provide you with business use case mapping, conceptual design guidance and an architectural risk assessment.

Note: Limitations may apply for U.S. Federal Agencies due to U.S. citizen / U.S. soil delivery requirement. Excluded product families include VMware vCloud Director®, VMware Cloud™, VMware Tanzu® and VMware SASE™.

### Accelerators

VMware Success 360 includes a wealth of Accelerators built to address your most common challenges—from onboarding to consumption and optimization.

The VMware team is continuously building new pathways to add to VMware Success 360 Accelerators Catalog.

For a list of products and use cases supported, please reference the table below.

ACCELERATORS		
Franchise	Product	Use Case
Digital Workspace	Workspace ONE® UEM Workspace ONE® Access™ VMware Horizon® (covers entire Horizon Suite)	Identity and Access Management Unified Endpoint Management Virtual Desktops and Applications
Virtual Cloud Network	VMware SD-WAN™ VMware NSX® Advanced Load Balancer™ VMware NSX®	Microsegmentation with NSX-T Network Virtualization NSX-V to NSX-T Migration Software-Defined WAN (SD-WAN) NSX Advanced Load Balancer for Server Load Balancing NSX Advanced Threat Prevention
