MEETING THE CHALLENGES

TAKING A SOFTWARE DEFINED APPROACH

vmware® NSX

NSX provides Smartgames with the flexibility and agility required to deliver a scalable, robust and secure network to deal with the demands of the constantly-expanding development environment.

Deployed NSX for:

Cost reduction through simplicity

Risk-mitigation through automation of security protocols

Faster time to market

For delivering on business demands

"VMware has been an amazing partner for Smartgames. They have been mission critical for us in providing solutions that increase innovation and improve speed to market, whilst simultaneously mitigating risks."

Paul Dingwitz, Head of Technology,
Managing Director at Smartgames Technologies

About Smartgames

Smartgames Technologies is a shared services company of the ZEAL Group, which delivers innovative technology, Human Resources and Office Management solutions. The global ZEAL Group is made up of multiple different brands. It includes companies (such as Lottovate), affiliated companies (such as MyLotto24, Smartgames Technologies), business units (such as ZEAL Investments) and online platforms (such as Tipp24). Together, they cover the three key areas of ZEAL's work: Lottery Betting, Lottery Partnerships and Lottery Ventures.
