

# VMware Carbon Black PS Consume Add-Ons Essentials

## At a glance

The primary objective of this service is to provide installation, configuration, and administration assistance for the VMware Carbon Black solution.

This service is conducted jointly with your team members to enhance the learning experience during the deployment.

## Key benefits

- Align security with business goals and objectives
- Develop key skills to be able to support your Carbon Black security platform
- Understand the gaps between your current and desired capabilities

## SKU

VSEC-CB-PS-ADDON-ESSL

## Service overview

VMware will provide implementation assistance to Customer for VMware product implementation and onboarding. We will provide maximum ten (10) consulting hours remotely for a duration of six (6) consecutive weeks. These hours would not be transferable between listed services and need to be consumed with in opted service.

## Project scope

VMware security consultant will work at the direction of the Customer and will have experience in their area of focus. The assistance provided may focus on one (1) of the following VMware technologies:

| Technology                                  | Offshore<br>(AMER, APJ, or EMEA) |
|---|----------------------------------|
| VMware Carbon Black® Cloud (All Editions)   | ✓                                |
| VMware Carbon Black® App Control            | ✓                                |
| VMware Carbon Black® EDR™ or CB Hosted EDR™ | ✓                                |

## Add-on use cases

VMware consultants will provide implementation assistance as time permits.

The assistance provided may focus on one (1) use case for each SKU service sold.

| Use Case | Description   | Implementation Examples   |
|----------|---|---|
| A.       | CB Cloud (All Editions)<br>Configuration and Operational Assistance | <ul style="list-style-type: none"> <li>• Pilot to Production deployment assistance for up to 1,000 additional Carbon Black sensors</li> </ul>   |
| B.       | CB App Control<br>Configuration and Operational Assistance          | <ul style="list-style-type: none"> <li>• Learn the fundamentals, improve security posture with policy guidance, investigate, and remediate threats</li> <li>• Basic operations walkthrough</li> </ul> |
| C.       | CB EDR or CB Hosted EDR<br>Configuration and Operational Assistance | <ul style="list-style-type: none"> <li>• Console administration, query assistance, notifications, API basics, and supported integrations</li> <li>• Investigate and remediate alerts</li> </ul>       |

| Use Case | Description                                | Implementation Examples  |
|----------|--|--|
| D.       | CB Cloud (All Editions)<br>Health Check    | <ul style="list-style-type: none"> <li>• Policies and product configuration assessment for up to one (1): <ul style="list-style-type: none"> <li>◦ CB App Control Server, CB EDR Server, or CB Cloud organization</li> </ul> </li> </ul>                                       |
| E.       | CB App Control<br>Health Check and Upgrade | <ul style="list-style-type: none"> <li>• Present the Health Check report</li> </ul>  |
| F.       | CB EDR<br>Health Check and Upgrade         | <ul style="list-style-type: none"> <li>• Provide knowledge transfer based on discoveries and recommendations</li> </ul>  |
| G.       | Migration<br>CB EDR to CB Cloud            | <ul style="list-style-type: none"> <li>• Pilot to Production deployment assistance for up to 1,000 additional Carbon Black sensors</li> <li>• Learn the fundamentals, improve security posture with policy guidance and prevention settings</li> </ul>                         |
| H.       | Migration<br>CB EDR to CB Hosted EDR       | <ul style="list-style-type: none"> <li>• Basic operations walkthrough</li> <li>• Create up to fifteen (15) policies, rules and/or watchlists</li> <li>• Migrate up to five (5) watchlists</li> <li>• Review and triage up to fifteen (15) alerts and watchlist hits</li> </ul> |

## Service Assumptions

1. VMware makes no representation or warranty that the services provided will yield any specific deliverable(s) or assumed result(s). The Consultant's time delivered, and technical knowledge are the assumed requirements for fulfillment of the service.
2. The service will be provided for a duration of four (4) contiguous weeks, without pause at the purchased in-region or offshore resource allocation ranging from one (1) to five (5) days per week. The resource allocation days per week procured must be consumed each week.
3. Customer may request to consume Delivery Specialist allocations planned in future weeks. Such requests will be granted based on resource availability.
4. Service will be initiated within 30 days of purchase.
5. VMware expects Customer to provide systems access as required for resource to perform activities and delays created by resource not having access will be the responsibility of Customer.
6. Customer is responsible for, and assumes any risk associated with any problems resulting from the content, completeness, accuracy and consistency of any data, materials and information supplied by the Customer.
7. Completion of any work will be limited by the resource allocated procured by the Customer.
8. VMware will assist with the installation/configuration of environment or feature type will be implemented based on the license type purchased by the Customer.
9. Any changes to the scheduling to compress the schedule will be mutually agreed and documented in writing.
10. Customer is responsible for ensuring configurations and policies align to their requirements. VMware will provide recommendations and assistance.
11. Configuration of software other than VMware software is the responsibility of the Customer.
12. Review of the settings and features will be provided throughout the configuration; however, formal training is out of scope.
13. Services or products that have been deprecated or reached end of life are out of scope.
14. Any work that may require custom configuration, scripting, or coding are out of scope.
15. Complex solution and architecture design is out of scope.
16. Pre-requisites must be completed for all components before any installation or configuration activities will be performed.
17. VMware reserves the right to assign Consultant(s) to the engagement in accordance with the skills levels required to perform the work described in this Datasheet.
18. VMware and the Customer will work closely together to ensure that project scope remains consistent, and issues are resolved in a timely manner.
19. All work will be delivered remotely via screen-share. On-site travel is out of scope.
20. All work will be conducted during VMware local business hours: 8am to 6pm UTC – 5:00 Eastern Time (US and Canada) or UTC +00:00 Dublin, London.

21. All work will be provided in English.
22. Any feature or technology not listed in Section 2. Activities is out of scope, unless agreed in writing with the Delivery Specialist Team prior to purchase.
23. The scope of the services is deemed complete upon ONE of the following criteria—whichever comes first:
  - Upon consumption of the total resource allocation procured
  - After 4 weeks from the date the project is initiated
  - The period of performance is limited to 12 months from purchase date

If the services were purchased using PSO credits, the services expire at the same time the credits expire unless a credit extension is requested. Work with your Account Executive to determine a plan for all remaining credits on the account and request an extension.

## Project Management

Customers that are engaging in a project and will leverage a resource on this effort should note that VMware will limit their project management responsibilities to the activities listed below. All other project management responsibilities and activities will be the Customer's responsibility as identified in the following table.

|   | VMware Responsibility | Customer Responsibility |
|---|-----------------------|-------------------------|
| <b>Project Setup and Initiation</b>   |                       |                         |
| Conduct kick-off conference call with key stakeholders and Project Team                                 | ✓                     |                         |
| Develop high-level project schedule and contact list  |                       | ✓                       |
| Develop project plan  |                       | ✓                       |
| <b>Scope Management</b>   |                       |                         |
| Identify and manage any activities associated with Customer's project                                   |                       | ✓                       |
| Identify and maintain a Work Breakdown Structure (WBS) of any activities                                |                       | ✓                       |
| <b>Schedule Management</b>  |                       |                         |
| Create, maintain, and manage a project schedule   |                       | ✓                       |
| <b>Financial Management</b>   |                       |                         |
| Track and manage project time   |                       | ✓                       |
| Review invoices for accuracy  | ✓                     |                         |
| <b>Quality Management</b>   |                       |                         |
| Establish and execute Customer's project readiness at key checkpoints                                   |                       | ✓                       |
| Identify, manage, and document requirements for user testing, operational readiness, or process changes |                       | ✓                       |
| <b>Risk and Issue Management</b>  |                       |                         |
| Track and manage project issues and risks (product, process or technical)                               |                       | ✓                       |

| Resource Management   |   |   |
|---|---|---|
| Identify and assign qualified VMware resources  | ✓ |   |
| Define, document, and manage a project resource plan if required                              |   | ✓ |
| Integrate VMware and Customer resources into the project schedule                             |   | ✓ |
| Manage and identify any changes to resource skills and communicate to VMware                  |   | ✓ |
| Identify and execute project change request for a different skill set if a change is required | ✓ | ✓ |
| Communications Management   |   |   |
| Weekly VMware status report(s)  | ✓ |   |
| Weekly status meeting(s)  |   | ✓ |
| Facilitate, host, and manage Customer meeting(s)  |   | ✓ |
| Attend periodic stakeholder meeting(s)  |   | ✓ |
| Host executive update(s)  |   | ✓ |
| Project Closure   |   |   |
| Host a project closure conference call  |   | ✓ |
| Complete a Customer Satisfaction Survey   |   | ✓ |
| Facilitate "Lessons Learned" session  |   | ✓ |
