VMware Professional Services will provide delivery specialist assistance to Customer for VMware product implementation and onboarding. We will provide the services remotely for a duration of four (4) contiguous weeks, without pause, at the purchased in-region or offshore resource allocation ranging from one (1) to five (5) days per week.

Project Scope
VMware Delivery Specialist consultants will work at the direction of the Customer and will have experience in their areas of focus. The assistance provided may focus on installation, configuration, and administration of one (1) the following VMware technologies:

<table>

</table>
VMware consultants may perform the following VMware technology related tasks as time permits:

1. **Workspace ONE UEM**
   a) Core Environment Install and Architecture Design
   i. High Availability (HA)
   ii. Disaster Recovery (DR)
   iii. Application Server Migration
   iv. Database Server Migration
   v. Workspace ONE UEM Environment Upgrades
   vi. Environment Migrations for Workspace ONE UEM to Workspace ONE UEM only
   vii. VMware AirWatch® Cloud Connector™
   b) Device and Application Management
   i. Device configuration and rollout for iOS and Android (Profiles, Payloads, Compliance)
   ii. Device configuration and rollout for Windows 10:
      1. Application Management
      2. Compliance and Remediation
      3. Users and Devices
      4. Patch Management
      5. Policy Management
   iii. Device configuration and rollout for Mac OS
   iv. Mobile Application Management
   v. Enterprise Integration for Active Directory and Certificate Authority
   c) Productivity and Collaboration
   i. Email, Calendar, Contacts
   ii. PowerShell integration for Office 365 and on-premises Exchange
   iii. Secure Email Gateway and Email Notification Service v2 (ENS v2) and Boxer
   iv. Certificate Integration for Email Authentication
   v. Productivity (Tunnel, Content, VPN) for Content, Secure Browsing and App Tunneling
   d) Rugged Device management
   i. Rugged Device Configuration (Windows Mobile and Android)
   ii. VMware Workspace ONE® Assist™
   e) Additional Capabilities
   i. VMware Workspace ONE® Intelligence™
   ii. SAML Integration [assumes the SAML provider is already setup]
   iii. Roll-out Support
   iv. Custom Documentation

2. **Workspace ONE Access**
   a) Core Environment Install and Architecture Design
   i. Install and Upgrades
   ii. Windows IDM connector
iii. High Availability (HA)
iv. Disaster Recovery (DR)
v. VMware Unified Access Gateway™
vi. Citrix Integration Broker
b) Native Workspace ONE App Store
c) 3rd Party IdP Integration (OKTA, Citrix, PING, ADFS)
d) Identity Bridging (SAML to Kerberos | Certificate to Kerberos)
e) Two-factor Authentication (DUO, RSA, VMware Verify)
f) Application Federation
  i. Standard Enterprise Web Applications
  ii. Non-Standard Applications that support SAML and OAUTH
g) VDI Integration to VMware Horizon®, Horizon Cloud and Citrix
h) Mobile Single Sign-on

3. Horizon Cloud and On-premises
   a) Desktops and Application Setup
      i. Basic Device and Application Management
      ii. Directory Integration
      iii. Portal setup
      iv. Desktop and application setup
      v. Image Optimization with VMware Optimization Tool
      vi. RDSH Desktop and application setup

4. App Packaging
   a) ThinApp
   b) AppStacks
   c) Writable Volumes

5. Dynamic Environment Manager
   a) Installation and knowledge transfer
   b) User configuration and application profiles setup
   c) Application profiler setup

6. VMware vRealize Automation (Blueprints)
   a) Create Templates and Blueprints for Adding Machines to Desktop Pools
   b) Use Machine Blueprints to Create and Add Desktops to Pools
   c) Configure a Machine Blueprint Service for Advanced Desktop Allocation

7. VMware vRealize® Operations for Horizon® (Dashboards)
   a) Create and Configure Dashboards and Widgets
   b) VMware vRealize® Operations Manager Dashboards
   c) vRealize Operations Manager Custom Dashboards
   d) Dashboard Configuration
   e) Dashboard Workspace Widget and Template Lists
   f) Dashboard Workspace Widget Interactions
   g) Dashboard Navigation
   h) Reorder and Switch Dashboards
Delivery Specialist

i) Manage Summary Dashboards
j) Manage Tab Groups
k) Share Dashboards

8. VMware vSphere
   a) VMware vCenter® Deployment
   b) VMware ESXi™ Deployment
   c) Admin / end user documentation

9. VMware Cloud Foundation
   a) Deployment
      i. Planning and Preparation Workbook
      ii. Network and Infra Readiness
      iii. Host Preparation
      iv. VMware Cloud Builder™ appliance
      v. VMware Cloud Foundation Bring-Up – VMware Cloud Foundation™ SDDC Manager™/VMware vCenter, etc.
      vi. Management Domain
      vii. VI Workload Domains
      viii. NSX-T Edge Cluster Deployment
      ix. VMware vRealize® Suite Deployment
   b) SDDC Manager
      i. Automation of the SDDC stack
      ii. Provisioning of the SDDC stack
      iii. Configuration of the SDDC stack
   c) Upgrade
      i. In Place Upgrade
      ii. Skip Level Upgrade
      iii. Upgrade the Management Domain
      iv. Upgrade Workload Domains
      v. Migrate vRealize Suite Products to Application Virtual Networks
      vi. Upgrade vRealize Suite Components
   d) Lifecycle Management
      i. VMware vRealize® Lifecycle Manager™ to manage vRealize Operations, VMware vRealize® Log Insight™/vRealize Automation
      ii. Host Commission and Decommission
      iii. Password Management
      iv. Users and Group Management
      v. Certificate Management
      vi. Backing up and Restoring SDDC Manager and VMware NSX® Manager™

10. NSX-T
    a) Deployment
       i. Environment Assessment
       ii. NSX Manager Appliance Cluster build on vSphere / KVM
       iii. NSX-T Manager Integration with vCenter
iv. Transport Zones (Overlay and Vlan)
v. Profiles
vi. Host Preparation
vii. VMware NSX® Edge deployment and configuration
viii. Licensing
b) NSX-T Backup, Restore and Upgrade
   i. SFTP
   ii. NSX-T / NSX-V Data Center
c) Services
   i. Tier-0 and Tier-1 Gateways
   ii. Segments and Host Switches
   iii. IPAM - DHCP Local / DHCP Relay
   iv. Micro segmentation
   v. Edge Firewall – Protection N-S traffic
   vi. Local Traffic Load Balancing – One Arm / Inline
   vii. VPN – L2/L3 VPN Services
   viii. AD Integration
   ix. Advanced Security
   x. Service Insertion
   xi. Traffic Monitoring and Troubleshooting
   xii. Certificates
11. NSX Advanced Load Balancer
   a) NSX Advanced Load Balancer Load Balancer Deployment
      i. Environment Assessment
      ii. AVI User Creation in vCenter
      iii. AVI Controller Cluster build on vSphere
      iv. AVI Controller Floating IP Configuration
      v. Cloud Connector Configuration
   b) AVI Software Upgrade
      i. AVI Controller Version Upgrade
c) AVI Services
   i. IPAM and DNS Profile
   ii. Virtual Services, Profiles and Policies Creation
   iii. Pool and Pool Group Creation
   iv. Health Monitoring
   v. GSLB Configuration
   vi. Service Engine Deployment
   vii. TLS termination, Cert management / automation
   viii. Autoscaling Blue-Green / Canary deployments
   ix. WAF (Web Application Firewall)
   x. Migration from existing load balancer to AVI
12. Data Center Migration/Workload Migrations
a) Infrastructure Discovery
   i. Deploy automated discovery and inventory tools (VMware vRealize®
      Network Insight™, Rvtools) and collect available asset data, including
      application dependencies
   ii. Performing health check of vSphere environment for migration readiness
       using VMware health analyzer
   iii. High-level migration strategy recommendations and methods to be used
        for the migration
   iv. Provide infrastructure discovery report
b) Discovery analysis and Migration Planning
   i. Analyze the discovery and dependency data to create migration runbooks
   ii. Finalize asset bundles and event schedule
   iii. Develop master migration event runbook and Conduct tabletop, Go/No-Go
        meetings
c) Migration Execution
   i. Installation of migration execution tools (VMware HCX®, VMware Site
      Recovery Manager®, VMware vSphere® Replication, Carbonite migrate)
   ii. Conduct dry-run migration event and Migration runbook validation
   iii. Complete pre-migration event preparation
   iv. Manage the command center and support executing the migration event
   v. Migration execution using various methodologies and tools which includes
      VMware vSphere® vMotion®, VMware vSphere® Storage vMotion®, Cross
      VMware vCenter vMotion, VMware HCX, Site Recovery Manager, vSphere
      Replication, Carbonite Migrate

13. VMware Carbon Black® Cloud Platform
   a) NGAV policies and rules
   b) Review and triage unexpected blocks
   c) Threat hunting workshops, Threat Intelligence feeds, watchlist tuning
   d) Audit and Remediation
   e) Vulnerability management
   f) Container Protection
   g) VMware Carbon Black Cloud migration from Carbon Black EDR or Hosted EDR
   h) Health check to assess policy configuration, optimize rules and watchlists

14. VMware Carbon Black® App Control
   a) Create additional primary trust strategies for high enforcement
   b) Review and triage unexpected blocks
   c) Assist with server upgrade or moving the server to a different platform
   d) Health check to discover and review the current VMware Carbon Black App
      Control software level, configuration, and architecture

15. VMware Carbon Black® EDR™ or Hosted EDR™
   a) Threat hunting workshops, Threat Intelligence feeds, watchlist tuning
   b) Assist with server upgrade or moving the server to a different platform
   c) Health check to discover and review the current VMware Carbon Black EDR
      software level, configuration, and architecture
Service Assumptions

1. VMware makes no representation or warranty that the services provided will yield any specific deliverable(s) or assumed result(s). The Consultant’s time delivered, and technical knowledge are the assumed requirements for fulfilment of the service.

2. The service will be provided for a duration of four (4) contiguous weeks, without pause at the purchased in-region or offshore resource allocation ranging from one (1) to five (5) days per week. The resource allocation days per week procured must be consumed each week.

3. Customer may request to consume Delivery Specialist allocations planned in future weeks. Such requests will be granted based on resource availability.

4. Service will be initiated within 30 days of purchase.

5. VMware expects Customer to provide systems access as required for resource to perform activities and delays created by resource not having access will be the responsibility of Customer.

6. Customer is responsible for, and assumes any risk associated with any problems resulting from the content, completeness, accuracy and consistency of any data, materials and information supplied by Customer.

7. Completion of any work will be limited by the resource allocated procured by the Customer.

8. VMware will assist with the installation/configuration of environment or feature type will be implemented based on the license type purchased by the Customer.

9. Any changes to the scheduling to compress the schedule will be mutually agreed and documented in writing.

10. Customer is responsible for ensuring configurations and policies align to their requirements. VMware will provide recommendations and assistance.

11. Configuration of software other than VMware software is the responsibility of the Customer.

12. Review of the settings and features will be provided throughout the configuration; however formal training is out-of-scope.

13. Services or products that have been deprecated or reached end of life are out-of-scope.

14. Any work that may require custom configuration, scripting or coding are out-of-scope.

15. Complex solution and architecture design is out of scope.

16. Pre-requisites must be completed for all components before any installation or configuration activities will be performed.

17. VMware reserves the right to assign Consultant(s) to the engagement in accordance with the skills levels required to perform the work described in this Datasheet.

18. VMware and the Customer will work closely together to ensure that project scope remains consistent, and issues are resolved in a timely manner.

19. All work will be delivered remotely via screen-share. On-site travel is out-of-scope.

20. All work will be conducted during VMware local business hours: 8am to 6pm UTC - 5:00 Eastern Time (US and Canada) or UTC +00:00 Dublin, London

21. All work will be provided in English.

22. Any feature or technology not listed in Section 2. Activities is out of scope, unless discussed and agreed in writing with the Delivery Specialist Team prior to purchase.
23. The scope of the services is deemed complete upon ONE of the following criteria - whichever comes first:
- Upon consumption of the total resource allocation procured
- After 4 weeks from the date the project is initiated
- The period of performance is limited to 12 months from purchase date

24. If the services were purchased using PSO credits the services expire the same time the credits expire unless a credit extension is requested. Work with your Account Executive to determine a plan for all remaining credits on the account and request an extension.

Project Management
Customers that are engaging in a project and will leverage a resource on this effort should note that VMware will limit their project management responsibilities to the activities listed below. All other project management responsibilities and activities will be the Customer’s responsibility as identified in the following table.

<table>
<thead>
<tr>
<th>VMWARE RESPONSIBILITY</th>

Delivery Specialist

LEARN MORE
Visit vmware.com/services.

Engagement Timeline
The service will be provided for a duration of four (4) contiguous weeks, without pause at the purchased in-region or offshore resource allocation ranging from one (1) to five (5) days per week. The resource allocation days per week procured must be consumed each week.

Customer Responsibilities
Customer is responsible for task assignment and prioritization of the supplied resource(s).

VMware Responsibilities
VMware will provide the resource(s) described in this Datasheet.

TERMS AND CONDITIONS
This datasheet is for informational purposes only. VMWARE MAKES NO WARRANTIES, EXPRESS OR IMPLIED, IN THIS DATASHEET. All VMware service engagements are governed by the VMware Professional Services General Terms and Conditions. If you are located in the United States, the VMware contracting entity for the service will be VMware, Inc. If you are outside the United States, the VMware contracting entity will be VMware International Limited.

This service must be delivered and accepted within the first 12 months of purchase, or the service will be forfeited. Pricing for this service excludes travel and other expenses. For detailed pricing, contact your local VMware representative.
