Business challenge

Technology adoption is not a single event. It's a continuous journey of innovation with new business opportunities to investigate, new discoveries to be made, and new routes to uncover. Achieving the expected outcomes from technology investments requires identifying the best routes, avoiding roadblocks, constantly monitoring and measuring progress, and making adjustments based on those metrics.

Success requires that both you and VMware have a laser focus on your desired goals and knowledge of what the best steps are to attain them. To do that we must work together.

Service overview

When you make a commitment to using VMware technology, you are getting a business partner who understands your challenges, your industry, and how to maximize the value from your solutions.

VMware Success 360™ for U.S. Federal Agencies is a comprehensive success offering that guides you through all the stages of your journey with VMware solutions. Delivered by United States citizens located on U.S. soil, it provides a consistent way of working with VMware that will help you continually realize value and achieve outcomes faster from your investments. There are several components – Success Planning, Adoption Guidance and Workshops, Digital Learning, and Dedicated and Proactive Support.

Success Planning

We will work with you to create your personal Success Plan based on your current state and your desired goals. The plan will:

- Document your desired business and IT outcomes, and use case priorities with mutually agreed upon metrics for success
- Show technical capabilities and activities needed to achieve these outcomes
- Contain milestones and identify responsible stakeholders to help monitor and measure progress
- Be continuously updated as new business opportunities arise or new solutions are adopted
- Contain recommended Adoption Guidance and Workshops, Digital Learning, or optional fee-based in-depth services, such as Consulting, Learning, or Technical Account Management, that may be needed to accomplish your goals, and that are incorporated into your plan

A Health Scorecard will provide you with a dynamic view of your overall health using critical metrics. We will track business value, performance value and experience value to help us ensure you are realizing value, and that our products are performing as you expect. Business value metrics track the economic value you are receiving

from VMware solutions including outcomes, cost savings, and adoption status. Experience value metrics help us determine if your experience with VMware is positive and relevant, measuring KPIs such as NPS, CSAT, number of support requests received/escalated and time to close them. Performance value measures how well our solutions are performing for you and tracks data such as product problem reports, feature requests and periods of uninterrupted usage. We will share progress and stay aligned through regular Executive Business Reviews to ensure stakeholders are completely aligned and in sync at all times.

Adoption Guidance and Workshops

We identified common customer challenges around key areas such as getting started, onboarding, or adoption and organized our assistance into Adoption Guidance and Workshops based on the outcomes you are pursuing. Adoption Guidance is provided through self-service assistance that helps you adopt a feature or build a basic capability. This includes on-demand "how-to" or "use case" webinars to help you implement new features. Workshops offer personalized assistance with our expert engineers who will guide you through a new feature, capability, or configuration in your system.
