

Introducing VMware Rapid Portfolio Modernization

Programs that use agile techniques, proven practices, and automated tools to accelerate portfolio modernization and rapid cloud migration

	Explore	Navigate	Accelerate: Migration	Accelerate: Replatforming
Timing	Half-day workshop or 2-4 week engagement	2- to 4-week strategy engagement	2- to 10-week execution engagement	
Outcomes	Identify opportunities to accelerate business priorities based on assessment	Decision framework, value stream mapping and roadmap for identified apps	Rapid migration of up to 60 VMs	Replatform selected apps to containers running on Kubernetes
Benefits	<ul style="list-style-type: none"> Uncover modernization patterns you can apply across your portfolio Identify measurable ways to accelerate your initiative Define the best and most reasonable tangible steps forward 	<ul style="list-style-type: none"> Understand your portfolio from technical and business perspectives Know how to drive measured outcomes for business impact. Prioritize a set of apps to migrate or refactor Empower your team with proven techniques 	<ul style="list-style-type: none"> Our Professional Services team migrates your applications to your desired cloud infrastructure with minimal downtime, using VMware vSphere* and VMware HCX* Migration verification, knowledge transfer session, and hand-over 	<ul style="list-style-type: none"> Replatform an existing set of application components to containers running on Kubernetes Work side by side with VMware experts to learn patterns as we deliver production-ready containers and de-risk your initiative

Assessment

Using intelligent tooling and techniques, including VMware vRealize® Network Insight™ and Application Transformer for VMware Tanzu®, the Rapid Portfolio Modernization program automates portfolio discovery and analysis with end-to-end visibility. Our facilitators then lead a set of interactive exercises with your organization to discuss findings, align, prioritize, and determine a roadmap of reasonable next steps.

Execution

Leveraging the roadmap and tooling, our experts will help you understand your portfolio, find opportunities to increase ROI, lower risk, and accelerate successful app migration and modernization.

To get started, contact your account team or email rapidportfoliomodernization@vmware.com.
