

Subscription Upgrade Program for VMware NSX

The Subscription Upgrade Program (SUP) for NSX provides a path for customers to upgrade perpetual VMware NSX® licenses to VMware NSX® subscription, on-premises entitlements (collectively the “NSX Offerings”) at a price reflecting the additional value. This program guide is effective April 1, 2022.

Terms and Conditions

- The Subscription Upgrade Program (SUP) for NSX delivers upgrade pricing on NSX Offerings when moving from existing perpetual entitlements to subscription, on-premises (“Term”) entitlements.
- For each NSX Offering purchased through the SUP for NSX, you must own a corresponding NSX perpetual license from which to upgrade. Additionally, you must have current support and subscription entitlement (“SnS”) for those perpetual NSX licenses to be eligible for this program.
- By participating in the SUP for NSX, you are agreeing to relinquish your corresponding perpetual NSX licenses upon completion of your purchase.
- Unless otherwise agreed by VMware in writing, no credit will be given for any prepaid, unused SnS.
- The SUP for NSX Program provides a one-way upgrade from perpetual to subscription.
- The SUP for NSX SKUs are not eligible for the VMware Volume Purchasing Program (VPP), VMware Transactional Purchasing Program (TPP), VMware Subscription Purchasing Program (SPP), or VMware Cloud Universal.
- The SUP for NSX Program cannot be combined with any other promotional discounts on the same product.
- SUP for NSX Program is not applicable to NSX included in VMware Cloud Foundation

Additional restrictions may apply.
