

# The Total Economic Impact™ Of VMware Cloud Foundation Network Operations

Through four customer interviews and data aggregation, Forrester concluded that VMware Cloud Foundation Network Operations has the following three-year financial impact.

## KEY METRICS

**75%** reduction in network monitoring time

**50%** reduction in network outages

More than **80%** increase in network mapping efficiency

**“Our environment is so large, expanding and changing constantly, and I didn’t have a 100% view of what was happening everywhere. But [VMware Cloud Foundation Network Operations] gives me the ability to see when things happen and then start to manage it and react to it.”**

Network administrator and engineer, aviation

## INVESTMENT OBJECTIVES

Gain a holistic view of application boundaries and dependencies

Improve security planning with network segmentation and firewall rule creation

Support broader digitization and cloud migration efforts

## FINANCIAL SUMMARY

**\$3.9M**

Benefits (present value)

## VOICE OF THE CUSTOMER

“It’s all about visibility. A lot of the time, when you’re dealing with a complex network, you don’t necessarily have a ton of visibility. But now we do. We’re able to run a query and say, ‘Hey, why can’t this device talk to this device.’”

IT infrastructure and security manager, chemical
