

VMware Carbon Black Hosted EDR

Sub-processors

Last Updated: January 26, 2022

VMware may hire other companies to provide certain services on its behalf. Sub-processors who may process Content (as defined in the Terms of Service) are itemized below. VMware affiliates may also process Content. As set forth in the Data Processing Addendum, VMware has adequate data transfer mechanisms in place with each sub-processor. The list below does not apply to pre-release versions.

Sub-processor	Country	Services Performed	Website
Amazon Web Services, Inc.	USA Germany Singapore	Hosting provider and platform services	https://aws.amazon.com/

VMware may use additional sub-processors for customer support and other back office functions— see the sub-processor listing for VMware Support Services.
