

VMware NSX® Defender™ and VMware NSX® Detonator™ Sub-processors

Last Updated: June 24, 2022

VMware may hire other companies to provide certain services on its behalf. Sub-processors who may process Content (as defined in the Terms of Service) are itemized below. VMware affiliates may also process Content. As set forth in the Data Processing Addendum, VMware has adequate data transfer mechanisms in place with each sub-processor. The list below does not apply to pre-release versions. The list below applies whether you purchased the VMware NSX Defender service or VMware Detonator service.

VMware NSX® Defender™

Subcontractor	Country	Services Performed
Elastic	USA, Belgium	Security Services – Logging and Monitoring
Google, LLC	USA, Netherlands	Cloud Infrastructure Services
Amazon Web Services, Inc.	USA, Netherlands USA	(1) Hosting Provider and Platform Service (2) Email Service ¹

VMware NSX® Detonator™

Subcontractor	Country	Services Performed
Google, LLC	USA, Netherlands	Cloud Infrastructure Services
Amazon Web Services, Inc.	USA, Netherlands	Hosting Provider and Platform Service
Amazon Web Services, Inc.	USA	Email Service ¹

VMware may use additional sub-processors for customer support – see the sub-processor listing for [VMware Support Services](#).

If you would like to receive updates to this sub-processor list, please go to <https://customerconnect.vmware.com/manage-user-profile/subscriptions>.

¹ The email service provided using AWS SES is encrypted and routed through the US data center location.
