

Optimize Hybrid IT delivery with software-defined solutions

Hewlett Packard Enterprise and VMware

Revolutionizing virtualization economics and creating new efficiencies

Want to move toward a more intelligent IT infrastructure that:

Offers more speed and agility?

+

Supports business innovation and growth?

+

Optimizes your total cost of ownership?

Accelerate your journey with HPE and VMware

Fully tested and verified infrastructure, software, services, and solutions

Complete portfolio of joint solutions orchestrated to work as one in a multi-cloud environment

Designed for virtualization, convergence, and hybrid cloud

Deploy ground-breaking innovations designed to:

- **Modernize your data center with software-defined infrastructure**
 - HPE and VMware provide a modern, software-defined data center that delivers unmatched efficiency, visibility, security, and speed.
 - HPE Synergy running VMware® Cloud Foundation™ is an enterprise private cloud solution that easily extends to the public cloud.
 - HPE OneView integrates seamlessly with VMware vCenter® to simplify administration with a single, unified management console across your physical and virtual environments.
- **Integrate your storage environment through all-flash acceleration**

HPE Storage All Flash Arrays with HPE InfoSight predictive analytics guarantee 99.9999% availability¹ for VMware environments.
- **Upgrade to Hybrid IT, supported by Gen10 technology**

HPE Gen10 servers provide unprecedented performance and security for VMware workloads.
- **Move to consumption-based IT, where everything is delivered a service**

HPE GreenLake Flex Capacity lets you consume your choice of infrastructure either on-premises or in a Hybrid IT managed environment.

Get game-changing results:

- **Faster application deployment**, including cloud-native apps
- **Superior and unprecedented performance** of VMware workloads running on HPE infrastructure
- **Converged physical and virtual environments** that are easier to manage and less costly to own
- **Streamlined, cost-efficient operations** made possible through automation
- **Deployment flexibility**, with support either on-premises or as a managed service

Trust HPE and VMware to push the industry forward:

75-year
history of IT innovation

100,000+
global partners

25,000+
solution experts

#1 in the world

HPE
for server market share

VMware
for virtualization market share
