- Andrew Hrycaj, *Principal Network Engineer*, HIS Markit
- Tom Gillis, *SVP/GM – NSBU*, VMware
- Ashish Shah, *Sr. Director – Product Management*, VMware
- Chad Kotil, PayPal

Prepare for the New Normal of Work from Anywhere [VCNC2919]

Work is no longer a place. To support this new reality, networking and security must merge to support seamless, secure, reliable application access to cloud and SaaS for users at the branch, home, or away. Join this session to hear how VMware technologies including SD-WAN, Workspace One, Avi, and NSX are coming together to support your plans for SASE transformation, while also learning how customers – including MD Anderson Cancer Center – were able prepare for this transformation while moving forward during COVID-19.

SPEAKERS

- Sanjay Uppal, *SVP & GM*, VMware
- Emil Patel, MD Anderson
