Support Levels

Support Level	Description
Supports	The product fully meets the letter and intent of the Criteria.
Supports with Exceptions/Minor Exceptions	The product does not fully meet the letter and intent of the Criteria, but provides some level of access relative to the Criteria.
Supports through Equivalent Facilitation	The accessibility tester identified an alternate way to meet the intent of the Criteria or the product does not fully meet the intent of the Criteria.
Supports when combined with Compatible AT	The product fully meets the letter and intent of the Criteria when used in combination with Compatible Assistive Technology ("AT"). For example, many software programs can provide speech output when combined with a compatible screen reader (commonly used AT for people who are blind).
Does Not Support	The product does not meet the letter or intent of the Criteria.
Not Applicable	The Criteria does not apply to the specific product.
Not Applicable - Fundamental Alteration Exception Applies	A Fundamental Alteration of the product would be required to meet the Criteria (see the access board's standards for the definition of "fundamental alteration").

§ 1194.22 Web-based Intranet and Internet Information and Applications

Criteria	Support Level	Remarks and Explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Not Applicable	Web pages do not provide images or non-text elements.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Not Applicable	Web pages do not have multimedia presentations.
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Not Applicable	Web pages do not have information that is conveyed by color only.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Supports	Web pages are readable when style sheets are disabled or with user-defined style sheets.
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not Applicable	vFabric License Server UI 1.1.0 does not have server-side image maps.
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not Applicable	vFabric License Server UI 1.1.0 does not have client-side image maps.
(g) Row and column headers shall be identified for data tables.	Supports with Exceptions	Row and column headers of data tables have identifying information with some exceptions. Column and row headers of the data tables on the Output page do not have the structural markup of <code>th</code> tags and <code>scope</code> attributes.
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Not Applicable	vFabric License Server UI 1.1.0 does not have data tables with multi-level columns or rows.

Criteria	Support Level	Remarks and Explanations
(i) Frames shall be titled with text that facilitates frame identification and navigation	Not Applicable	vFabric License Server UI 1.1.0 does not have frames.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Supports	Web pages do not have content that flashes or blinks with a frequency greater than 2 Hz and lower than 55 Hz.
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Supports	Text-only pages are provided since compliance cannot be met any other way or are not required.
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Supports with Exceptions	Assistive technology and keyboard users can access scripted interfaces, with some exceptions. On the Input page, users cannot tab to or arrow to the first or second radio button; initial focus appears in the Previous Days edit box.
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).	Does Not Support	vFabric License Server UI 1.1.0 does not provide a link to download and install the Excel viewer so users can access the CSV version of results.
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supports with Exceptions	Assistive technologies, such as screen readers, may not identify and navigate to all form elements to complete and submit forms online. Form fields do not have proper labeling. Associated form fields are not grouped.
(o) A method shall be provided that permits users to skip repetitive	Not Applicable	vFabric License Server UI 1.1.0 does not have repetitive links.

Criteria	Support Level	Remarks and Explanations
navigation links.		
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not Applicable	vFabric License Server UI 1.1.0 does not require timed responses.

Note to 1194.22: The Board interprets paragraphs (a) through (k) of this section as consistent with the following priority 1 Checkpoints of the Web Content Accessibility Guidelines 1.0 (WCAG 1.0) (May 5 1999) published by the Web Accessibility Initiative of the World Wide Web Consortium: Paragraph (a) - 1.1, (b) - 1.4, (c) - 2.1, (d) - 6.1, (e) - 1.2, (f) - 9.1, (g) - 5.1, (h) - 5.2, (i) - 12.1, (j) - 7.1, (k) - 11.4.

§1194.31 Functional Performance Criteria

Criteria	Support Level	Remarks and Explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Supports with Exceptions	Some information retrieval processes and/or operations require vision and may not provide support for assistive technologies. Column and row headers of data tables do not have structural markup. Form fields do not have proper labeling. Associated form fields are ungrouped.
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Supports with Exceptions	Some information retrieval processes and/or operations require vision acuity greater than 20/70 and may not provide support for assistive technologies. Content cannot be resized using Internet Explorer's Text Size. The foreground and background colors for content do not provide sufficient color contrast.
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided	Supports	vFabric License Server UI 1.1.0 does not require hearing for information retrieval and operations. Support for hearing devices may be provided.
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Not Applicable	vFabric License Server UI 1.1.0 does not have audio information.
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or	Supports	vFabric License Server UI 1.1.0 does not require speech for information retrieval or operations. Support for assistive technologies

Criteria	Support Level	Remarks and Explanations
support for Assistive Technology used by people with disabilities shall be provided.		may be provided.
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Supports with Exceptions	vFabric License Server UI 1.1.0 does not require fine motor control or simultaneous actions. Persons with dexterity impairments can perform product operations, with some exceptions. On the Input page, users cannot tab to or arrow to the first or second radio button; initial focus appears in the Previous Days edit box.
