Wi-Fi ¹⁴	•	•	•	•	•
PRICING AND LICENSING					
Pricing	Prices and support levels may vary per provider				
Licensing ¹⁵	500 device maximum	2,500 device maximum	Unlimited		

Workspace ONE Express and Workspace ONE Express Plus can be upgraded to Workspace ONE Standard or Advanced editions. For more information on Workspace ONE, visit [vmware.com/products/workspace-one](https://www.vmware.com/products/workspace-one).

1. Workspace ONE Express provides limited support for the following profiles through Blueprints: Exchange ActiveSync, Passcode, and Restrictions. Workspace ONE Express Plus provides limited support for the following profiles: Password, Restrictions, Email, Wi-Fi, Windows Updates, Firewall, Microsoft Defender, Encryption, and Personalization.
2. Workspace ONE Express Plus offers enhanced support for Windows 10 beyond what is offered by Workspace ONE Express. Workspace ONE Express Plus supports only iOS, Android and Windows 10. Workspace ONE Express Plus does not support macOS.
3. Reporting in Workspace ONE Express and Workspace ONE Express Plus is limited to the ability to export lists from specific pages.
4. Workspace ONE Express Plus does not support Dell factory provisioning.
5. Workspace ONE Express Plus supports Windows Updates for Business only. No support for WSUS.
6. Workspace ONE Express and Workspace ONE Express Plus offer limited support for device restrictions.
7. Workspace ONE Express Plus only supports third-party apps that are in the public app store.
8. When licensing Workspace ONE in a device-license model, the SSO, MFA, and Access Control technologies are restricted to only work on managed devices and from managed applications. Organizations looking to enable access to enterprise applications across devices not managed by Workspace ONE UEM or allowing access to enterprise applications from any web browser must license Workspace ONE in a per-user license model.
9. Mobile email management in Workspace ONE Express and Workspace ONE Express Plus is limited to provisioning Exchange ActiveSync on the device's native email client.
10. SEG included in Workspace ONE Standard is limited to native mail clients.
11. Workspace ONE Express and Workspace ONE Express Plus support the public app store only.
12. Workspace ONE Express and Workspace ONE Express Plus include a legacy application catalog and not the entire Workspace ONE Intelligent Hub experience.
13. Mobile application management in Workspace ONE Express and Workspace ONE Express Plus is limited to public and web applications.
14. Wi-Fi support in Workspace ONE Express and Workspace ONE Express Plus is limited to WEP, WPA and WPA2 security types.
15. Workspace ONE Express is available only via partners in the VMware Solution Provider program and VMware Cloud Provider™ Program for MSPs.
