Wi-Fi <sup>14</sup>	●	●	●	●	●	●
<b>Pricing and Licensing</b>						
Pricing	Prices and support levels may vary per provider.					
Licensing <sup>15</sup>	500 device maximum		Unlimited.			

Workspace ONE Express and Workspace ONE Express Plus can be upgraded to Workspace ONE Standard or Advanced Editions. For more information on Workspace ONE, visit [vmware.com/products/workspace-one](http://vmware.com/products/workspace-one) and see the [VMware Workspace ONE Packaging and Licensing Guide](#).

- 1 Workspace ONE Express provides limited support for the following profiles through Blueprints: Exchange ActiveSync, Passcode and Restrictions. Express Plus will provide limited support for the following profiles at launch (1907): Password, Restrictions, Email, Wi-Fi, Windows Updates, Firewall, Windows Defender, Encryption, and Personalization.
- 2 Express Plus offers enhanced support for Windows 10 beyond what is offered by Express. Express Plus supports only iOS, Android, and Windows 10. Express Plus does not support macOS.
- 3 Reporting in Express and Express Plus is limited to the ability to export lists from specific pages.
- 4 Express Plus does not support Dell Factory Provisioning.
- 5 Express Plus will support Windows Updates for Business only. No support for WSUS.
- 6 Express and Express Plus offer limited support for device restrictions.
- 7 Express Plus will only support third-party apps that are in public app store.
- 8 When licensing Workspace ONE in a device-license model, the SSO, MFA, and Access Control technology is restricted to only work on managed devices and from managed applications. Organizations looking to enable access to enterprise applications across devices not managed by Workspace ONE UEM (AirWatch) or allowing access to enterprise applications from any web browser, must license Workspace ONE in a per-user license model.
- 9 MEM in Express and Express Plus is limited to provisioning Exchange ActiveSync on the device's native email client.
- 10 SEG included in Workspace ONE Standard is limited to native mail clients.
- 11 Express and Express Plus support public app store only.
- 12 Express and Express Plus will include a legacy application catalog and not the entire Intelligent Hub experience.
- 13 MAM in Express and Express Plus is limited to public and web applications.
- 14 Wi-Fi support in Express and Express Plus is limited to WEP, WPA and WPA2 security types.
- 15 Workspace ONE Express is available only via partners in the VMW Sol Provider and VCPP MSP Programs. Workspace ONE Express Plus is available only via Dell.
