

Professional Services for Cybersecurity Maturity Model Certification (CMMC) Readiness Assessment

At a glance

Gain the knowledge to confidently meet and execute the required CMMC framework for all Department of Defense (DoD) suppliers.

Key benefits

- Comply with CMMC regulations to work with the DoD
- Develop a security policy to keep pace with the onslaught of digital threats
- Comply with government security and industry-specific regulations

NOTE: VMware does not certify organizations nor are organizations allowed to certify themselves. Certification is achieved through a third party.

Business Challenge

Many organizations provide services and products that the Department of Defense (DoD) needs and wants. However, becoming a supplier for the DoD requires Cybersecurity Maturity Model Certification (CMMC) compliance. Identifying cybersecurity gaps to meet requirements will help your organization more efficiently remediate any risks and improve time to market.

Understanding your current security posture and risk profile will help you set up security best practices that reduce your risk while maintaining required industry standards and meeting compliance regulations.

Service overview

When you work with VMware's Professional Services for Cybersecurity Maturity Model Certification Assessment, our team will help you:

- Deeply analyze your current security protection level
- Demonstrate compliance with DoD standards and regulatory rules
- Comply with government security acts and industry-specific regulations
- Protect your brand reputation and enhance your credibility with your stakeholders and within your industry

Assessment Evaluation Areas

We will evaluate the four control points and associated five trust pillars against the NIST 800-53 standard.

Service Engagement At-a-Glance

The engagement includes an assessment that identifies gaps and requirements to support, integrate, and manage your environment.

Deliverables

You will receive a detailed assessment report that describes existing gaps and misalignments, VMware best-practice counsel, and high-level scoring for individually assessed sections. You will also receive a consolidated presentation of prioritized recommendations with an overview of the current state, existing gaps, and next steps.
