

Professional Services

Service Delivery Executive

Speed your complex transformations

At a glance

The Service Delivery Executive will be your single point of coordination and accountability for all services provided by VMware by Broadcom Professional Services.

Key benefits

- Faster and more successful transformation
- Improved business outcome achievement and value realization
- Single point of contact and accountability for all VMware by Broadcom services
- Visibility across all VMware by Broadcom Professional Services delivery engagements
- Reduced risk and improved mitigation strategies
- Better, more efficient cross-functional communication

Transformation initiatives have moved beyond infrastructure modernization as organizations pursue larger and more complex endeavors. These initiatives are frequently executing concurrent workstreams and involve multiple VMware by Broadcom technologies, solutions, and teams.

Service overview

This service is designed to speed your transformation and achieve your business outcomes by helping you optimally design, build, and operate your VMware by Broadcom solutions. We provide you with a Service Delivery Executive and an Enterprise Architect who have the deepest expertise and experience with VMware by Broadcom products and services. The service will provide you with an integrated view of all Professional Services engagements and give you a single point of accountability for all services provided by VMware by Broadcom.

Service Delivery Executive

Your Service Delivery Executive (SDE) is an industry expert well-versed in the VMware by Broadcom portfolio who will be accountable for the delivery of all our services. They will provide you with:

- Governance and management across all VMware by Broadcom delivery programs and teams
- Transformation strategy advice on how to apply technology to business outcomes
- A continuously maintained VMware by Broadcom technology roadmap, an adoption plan, and alignment of programs to your business goals with KPIs
- Focused oversight and accountability for all VMware by Broadcom lines of business (VMware Cloud Foundation™ Professional Services, Customer Success, Learning, and Support)
- Delivery executive relationship management
