vmware® **EXPLORE**

Stepping into the Cloud:

Modernizing Your Data Center with VMware Cloud

Joel West

#vmwareexplore #CXS2358BCN

Agenda

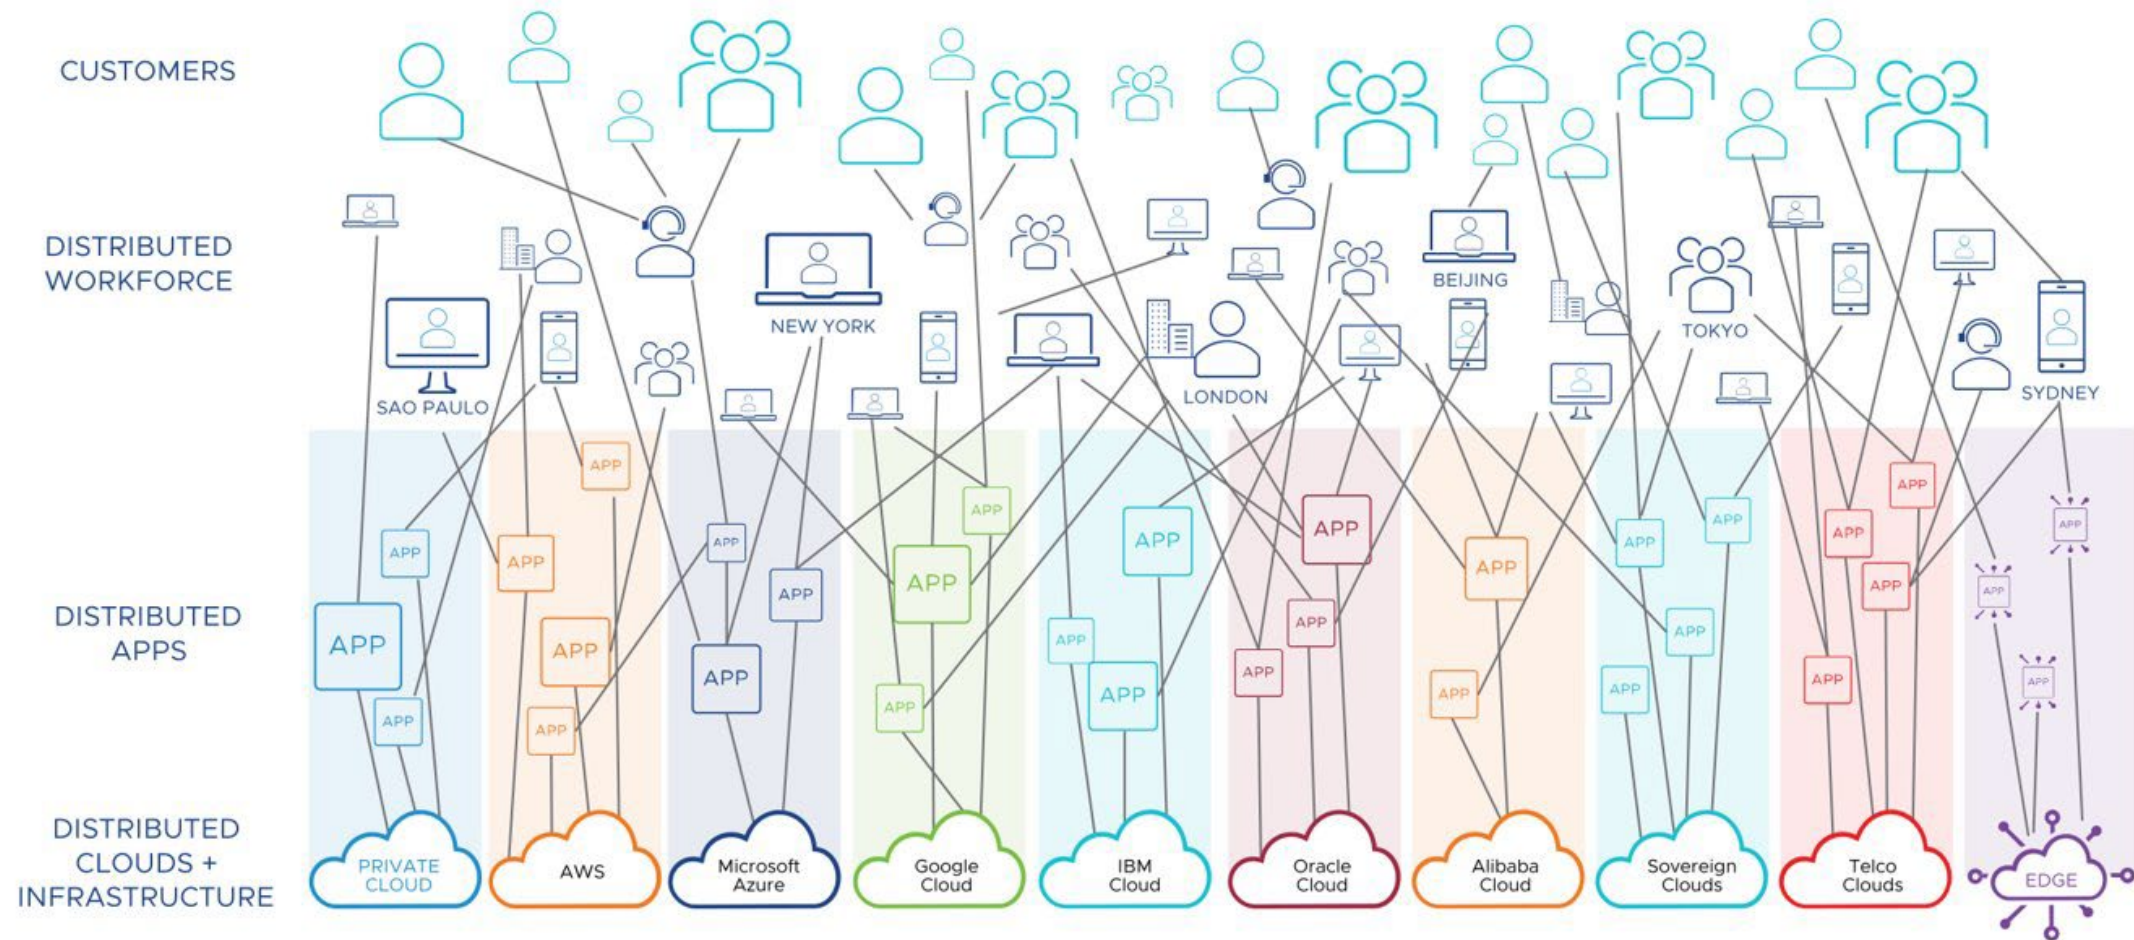

Defining Multi-Cloud and Cloud Operational Model

Is This for Us? (What VMware Cloud Means for On-Prem)

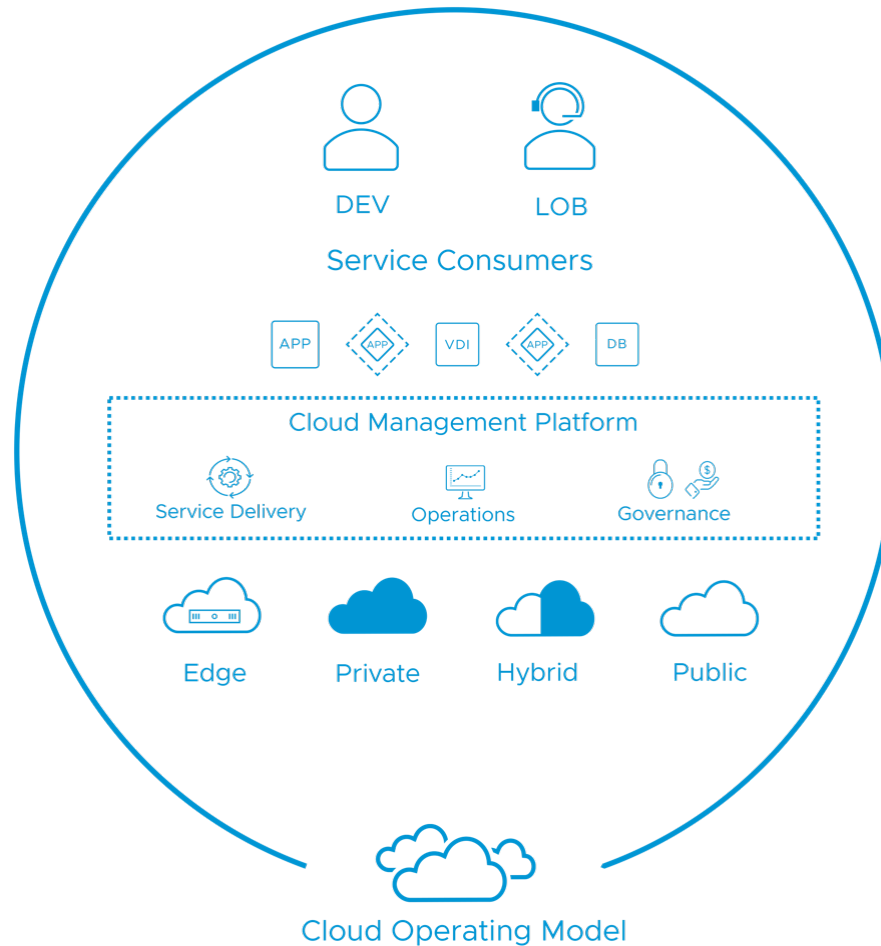

Updates to Training and Certification

Defining Multi-Cloud and Cloud Operational Model

Rush to Cloud Produced Cloud Chaos

What Cloud Operational Model Really Means

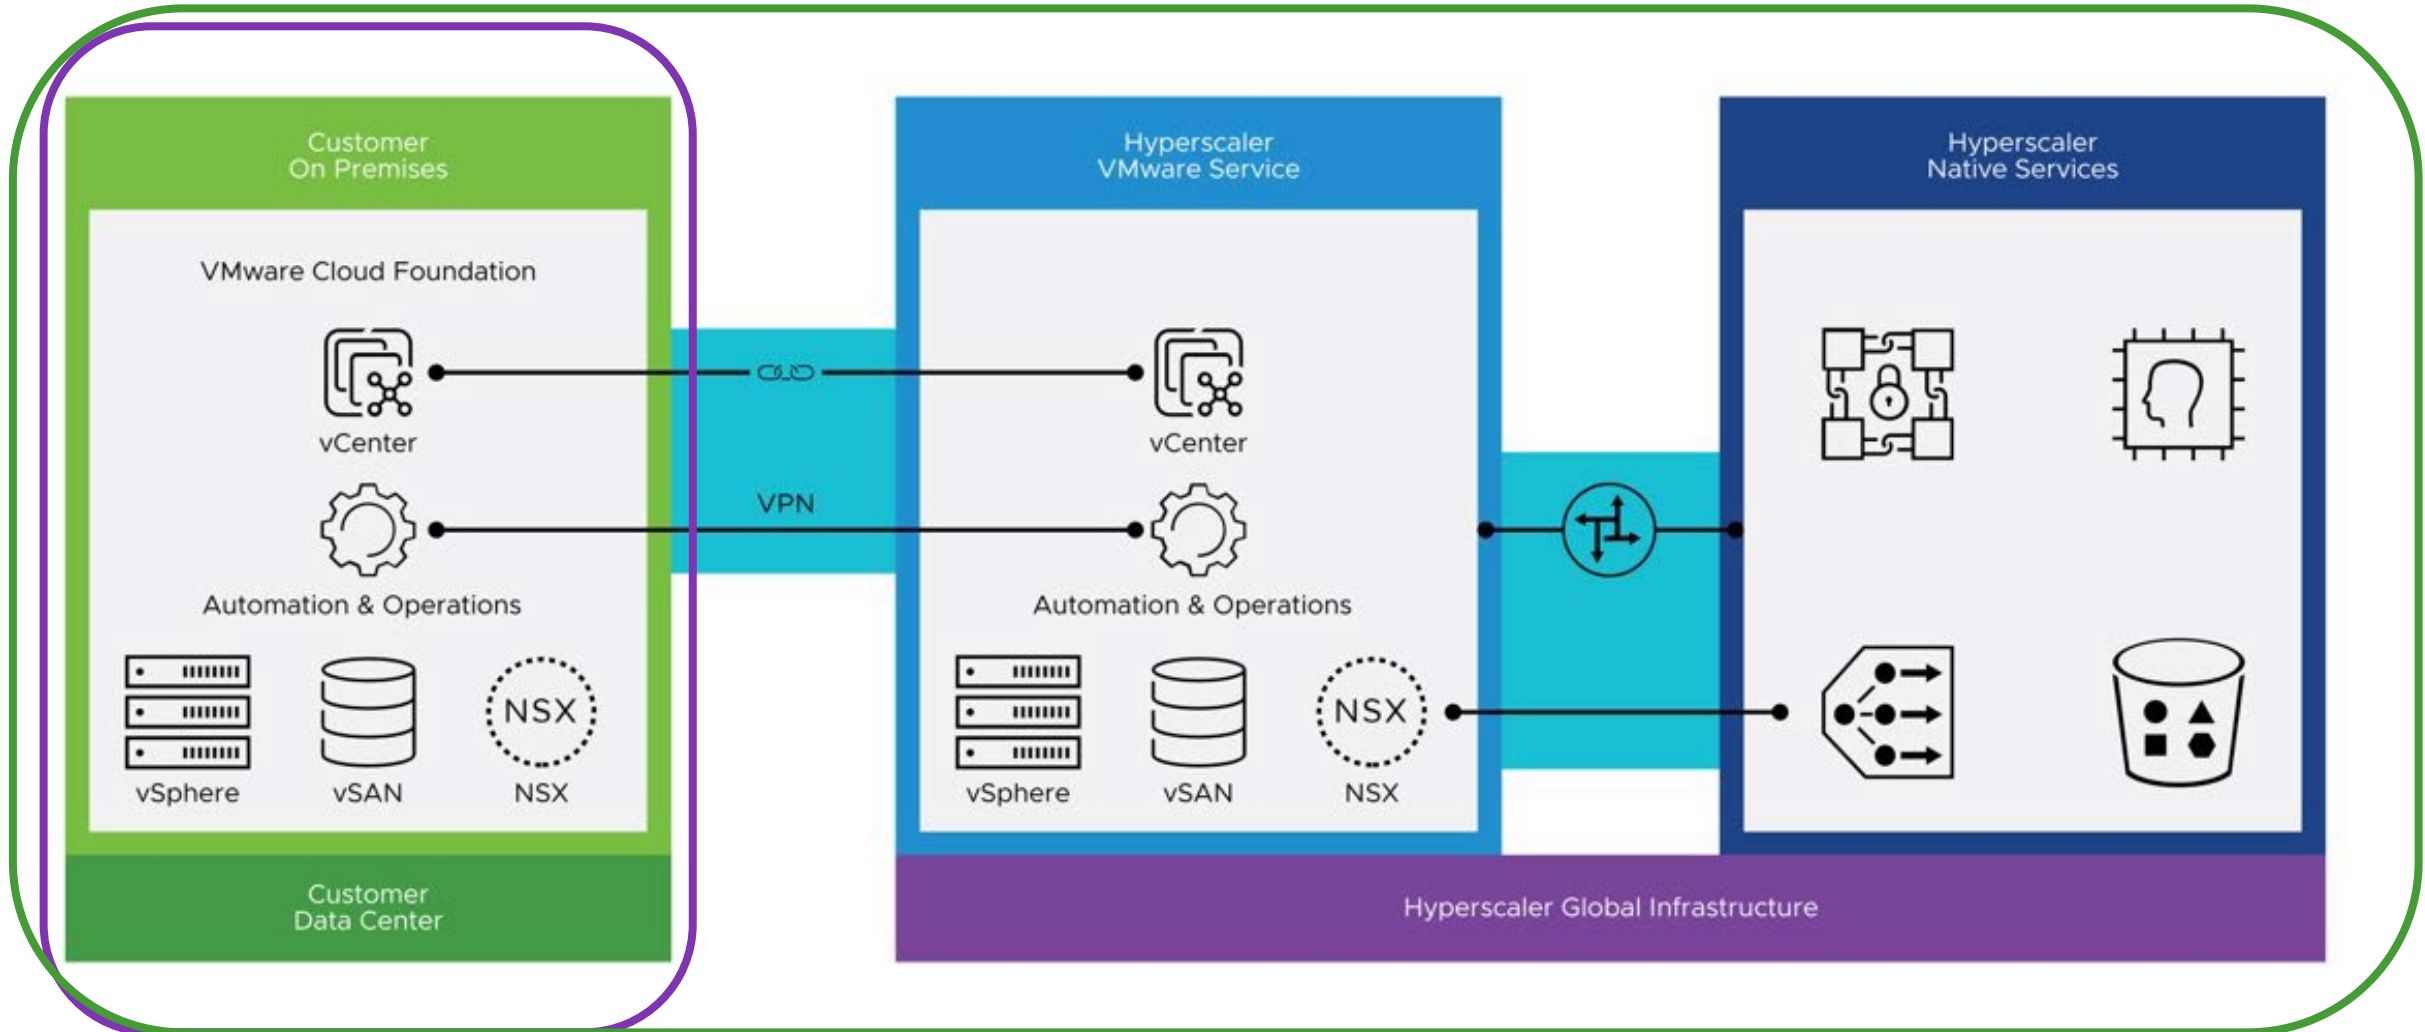

Deliver high-margin cloud services – with cloud placement in line with outcomes

Directly address developer needs

Software-defined foundation

People-Process-Procedure

Cloud Operational Model in Action

Is This for Us?

What VMware Cloud Means for On-Prem

Updates to Training and Certification

VMware Learning's New Mission

Persona vs Product – Evolution of Training and Certification

Product-Based

Memorize limits and configuration details

Version specific questions on products

Obscure troubleshooting questions from blogs or KBs

Role-Based

Memorizing things that change frequently does not demonstrate administration expertise

Describe why the chosen solution stack meets objectives and how products work together

Demonstrate modern troubleshooting methodology

VMware Cloud Foundation: Deploy, Configure, Manage (1)

- Plan a deployment for VMware Cloud Foundation
- Understand VMware Cloud Foundation and supporting architecture
- Configure VMware Cloud Foundation for VMware Cloud Connectivity
- Configure NSX networking in VMware Cloud Foundation
- Deploy and manage Workload Domains
- Deploy vSphere with Tanzu on VMware Cloud Foundation
- Perform maintenance tasks for the VMware Cloud Foundation platform
- Manage certificates for VMware Cloud Foundation and connected technologies
- Manage the lifecycle for VMware Cloud Foundation

New Courses

VMware Cloud Foundation: Troubleshooting

Resolving Day 0 Issues

- Deployment Workbook
- Bring Up

Resolving Day 2 Issues

- NSX in WLD
- WLD configuration changes

Lifecycle Management

- Upgrades

Live Labs and SIMs

Beta January 16th

Migrating to VMware Cloud Foundation 5.0

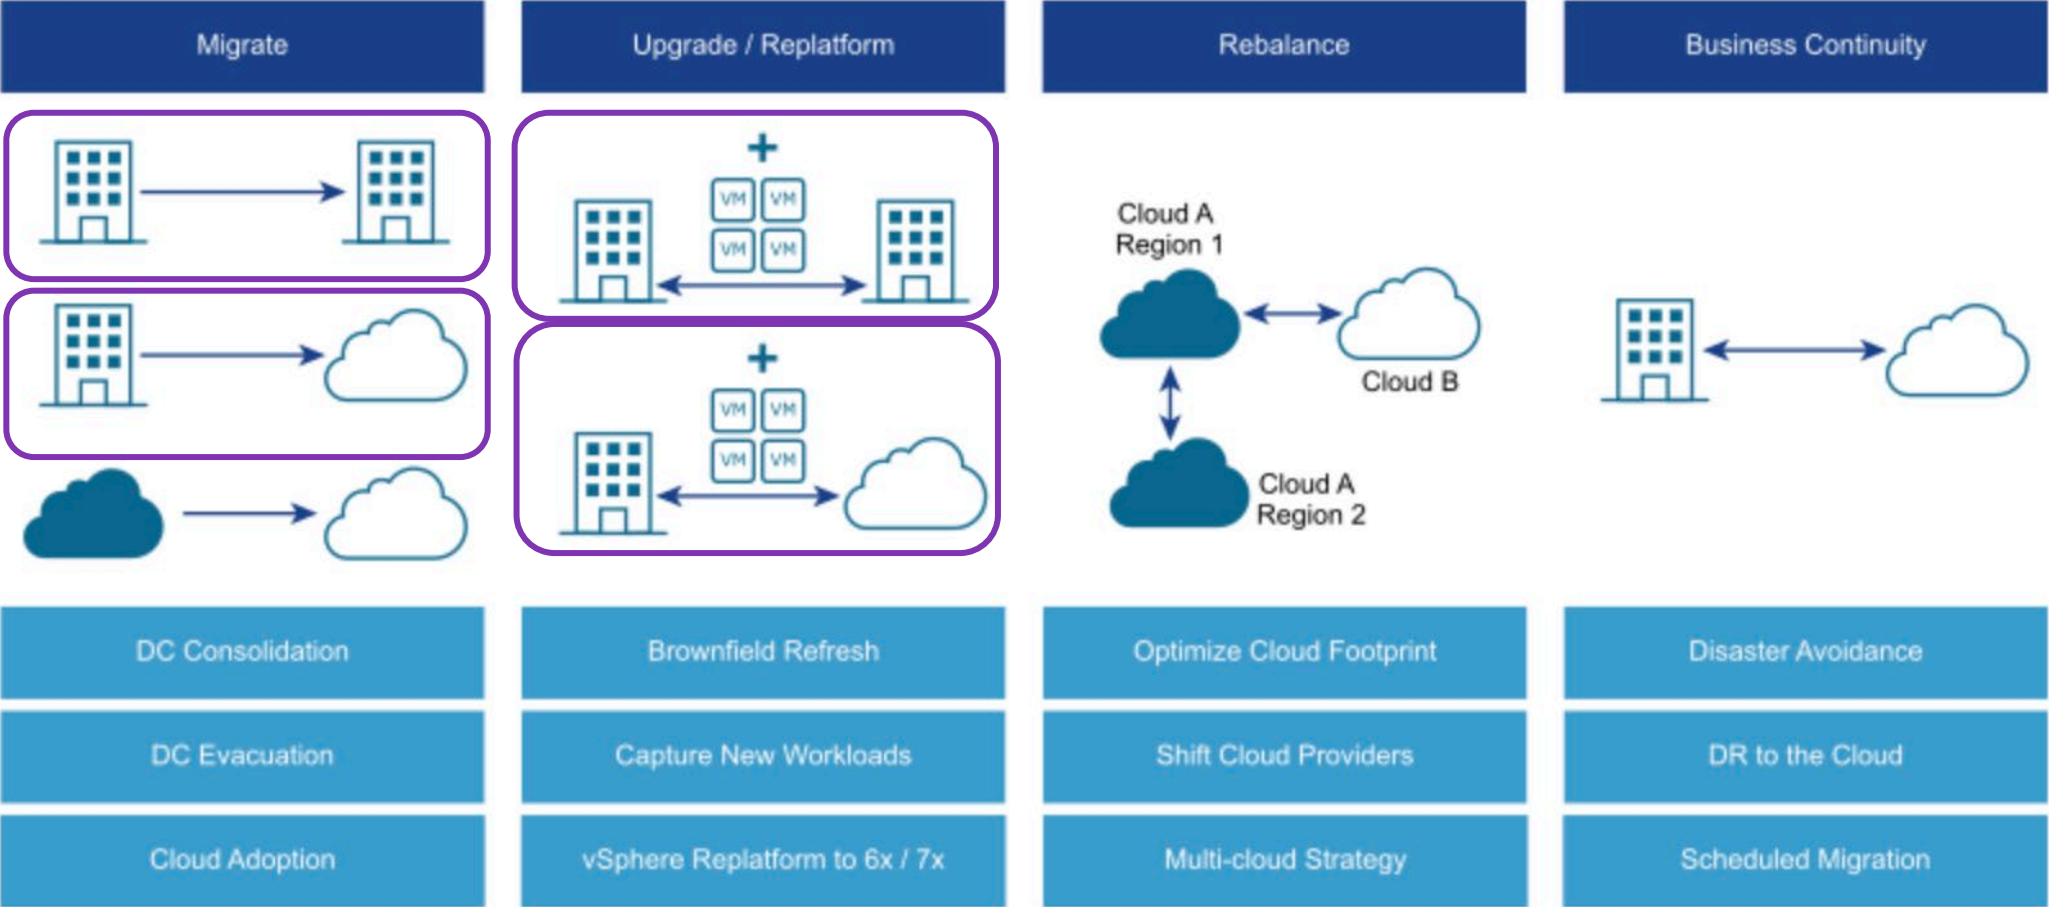

For Existing vSphere Administrators

Focuses on Skill Gaps - How to
Enable Customers

Migrations for HCX focus on on-
premises (how to migrate from
existing vSphere to VMware Cloud
Foundation Workload Domain)

January 22nd

HCX – Legacy Migration and Workload Mobility

VMware Cloud Infrastructure Administrator

Role Based
