Get started on your VMware Learning journey by contacting one of our *Americas Learning Specialists*.

Accelerate your skills anytime, anywhere

VMware can help you thrive in your career journey—professionally and personally. We believe that access to world-class knowledge, when you want it and where you want it, is critical to your long-term success. The Customer Connect Learning™ Premium Subscription is purpose-built for individuals who want on-demand access to the latest "how-to" videos, product insights and VMware Certification Exam preparation. Think of Connect Learning Premium as a knowledge base for when you have a question about a VMware product or want to build skills for the next step in your career journey.

As an individual member of Connect Learning Premium, you will have 24-hour, 365-day access to our centralized learning zone digital platform. Each Connect Learning Premium offers:

- **65+ VMware eLearning modules**, which are informative subject-matter lessons

- **1,500+ short form "how-to" videos** spanning all VMware solutions

- **650+ VMware Certification Exam Preparation** videos to help you achieve:

  - o Badging and accreditations
  - o VMware Certified Technical Associate (VCTA)
  - o VMware Certified Professional (VCP)
  - o VMware Certified Advanced Professional (VCAP)

Connect Learning Premium does not include VMware full-length, instructor-led training courses and supporting Hands-On Labs. This content is available only to VMware Enterprise Learning Subscription participating members. Contact your Americas Learning Specialist to learn which option is right for you.

VMware eLearning Modules

VMware eLearning Modules are abbreviated lesson modules. Each presents narrated video sessions featuring content that spans the following VMware technologies:

- Software-Defined Data Center (SDDC)

- Multi-Cloud

- Cloud Networking and Security

- Digital Workspace

- Modern Applications

Each lesson module presents a series of sequential modules that you can complete on your schedule. Take any or all available VMware eLearning Modules once or as many times as desired throughout your Connect Learning Premium subscription term.

vmware®

Skill levels per eLearning Module can vary from *Beginner*, *Intermediate* or *Advanced* with further selections available by job role. Figure 1 showcases a few VMware eLearning titles and user experience.

Guided, short-form VMware solution videos

We recognize that you may not have time to sit through in-depth instructional lesson plans. Sometimes, you just want to know a specific implementation step or task.

We have created "how-to" videos to help you troubleshoot and resolve common tasks. These videos average 15 minutes in length. Get the information you need now to help you complete a project. Figure 2 presents a few examples of our short-form instructional video library.

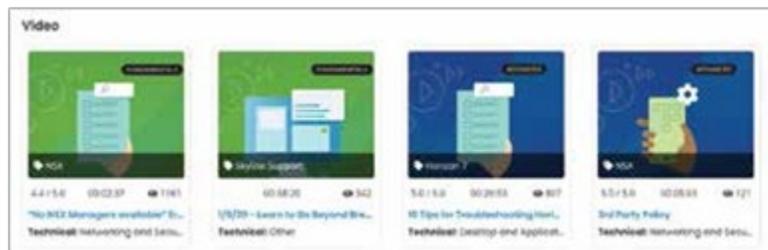

FIGURE 2: Featured "How-To" Videos, Connect Learning Premium

Certification exam preparation videos

VMware Certifications represent a validation of your skills and recognition of excellence. Each Certification Exam preparation video in your Connect Learning Premium reviews each exam objective and the blueprint to understanding the skills assessed. These videos do not focus on teaching you how, but instead provide you with the best possible guidance to make sure you're ready to pass the exam.

We guide you with supporting documentation, walk through network design guides, highlight helpful resources, and suggest additional content in our library to advance your learning. The focus is on the exam topics that you will most likely be presented. This is a great way to help you identify any knowledge gaps and get the answers.
