Supplementary to VMware instructor-led training

Gain knowledge at your own pace

Great starting point to advance your skills and career

Get started on your VMware Learning journey by contacting one of our Learning Specialists.

Accelerate your skills anytime, anywhere

VMware can help you thrive in your career journey—professionally and personally. We believe that access to world-class knowledge, when and where you want it, is critical to your long-term success. The VMware Digital Learning Premium Subscription is purpose-built for individuals who require online 24/7 access to the latest solution videos, product insights as well as VMware Certification exam preparation. Think of VMware Digital Learning Premium Subscription as your comprehensive solution for digital training when you have a question about a VMware product or want to build skills for the next step in your career journey.

As an individual member, you will have 24/7 access to our centralized learning platform. Each VMware Digital Learning Premium Subscription offers:

- More than 60 VMware eLearning modules
- Hundreds of short videos spanning all VMware solutions
- VMware Certification exam preparation videos to help you achieve:
 - VMware Certified Technical Associate (VCTA)
 - VMware Certified Professional (VCP)
 - VMware Certified Advanced Professional (VCAP)

Customers requiring access to additional resources including VMware On Demand courses or associated Lab Connect can purchase them separately or purchase the Enterprise Learning Subscription. Contact your [Learning Specialist](#) to learn which option is right for you or your team.

VMware eLearning modules

VMware eLearning modules are narrated video sessions featuring content that spans the following VMware technologies:

Value-added features

New content added weekly

Receive complementary invitations to our Live Instructor Hours as they are scheduled

Get notified of special VMware instructor-led training offers and live webinars

Learn More

Discover VMware Learning by visiting

www.vmware.com/learning

- Multi-Cloud
- Virtual Cloud Networking
- Security
- Anywhere Workspace
- App Modernization

Each lesson presents a series of sequential modules that you can complete on your schedule. Complete any or all available VMware eLearning modules as many times as desired throughout your subscription term.

You can filter content based on products, relevant features, skill level or solution area.

Guided, short-form VMware solution videos

We recognize that you may not have time to sit through in-depth instructional lesson plans. We have broken up long courses into short modular lessons, to allow you to better plan your learning.

Certification exam preparation videos

VMware Certifications represent a validation of your skills and recognition of excellence. Each certification exam preparation course in your subscription reviews each exam objective and the blueprint to understanding the skills assessed. These videos do not focus on teaching you how, but instead provide you with the best possible guidance to make sure you're ready to pass the exam.

Exam Preparation Courses

Review exam objectives with VMware Certified Instructors.

1/6

We guide you with supporting documentation, walk through network design guides, highlight helpful resources, and suggest additional content in our library to advance your learning. The focus is on the exam topics that you will most likely be presented. This is a great way to help you identify any knowledge gaps and get the answers.
