Attention: Eric Betts, Certifications Manager

Dear Mr. Betts,

I am pleased to inform you that the certification body of the Canadian Common Criteria Evaluation and Certification Scheme (CCS) has completed the certification of VMware vSphere 5.1 Update 1c to the EAL 2+ level of assurance. The Canadian Certified Products List and international Common Criteria website will be updated in due course to reflect the results of this successful evaluation and certification project. I would like to express my appreciation to both VMware and CGI IT Security Evaluation & Test Facility for their efforts in progressing the evaluation to its successful conclusion, and for the spirit of cooperation shown to the CCS certification body.

Sincerely,

Robert Harland
CCS Manager
