

VMware Cloud™ on AWS and VMware Cloud™ on AWS Outposts Sub-processors

Last Updated: June 22, 2022

VMware may hire other companies to provide certain services on its behalf. Sub-processors who may process Content (as defined in the Terms of Service) are itemized below. VMware affiliates may also process Content. As set forth in the Data Processing Addendum, VMware has adequate data transfer mechanisms in place with each sub-processor. The list below does not apply to pre-release versions.

Sub-processor	Country	Services Performed
Amazon Web Services, Inc.	USA United Kingdom Germany Australia Ireland Japan Singapore France Canada India South Korea Brazil Sweden	Hosting provider and platform services

VMware may use additional sub-processors for customer support – see the sub-processor listing for VMware [Global Support Services](#).

If you would like to receive updates to this sub-processor list, please go <http://pages.cloud.vmware.com/sub-processor-communications>, and enable notifications for this sub-processor list.
