

VMware Edge Network Intelligence™

Sub-Processors

VMware may hire other companies to provide certain services on its behalf. Sub-processors who may process Content (as defined in the General Terms) are itemized below. VMware affiliates may also process Content. As set forth in the Data Processing Addendum, VMware has adequate data transfer mechanisms in place with each sub-processor. The list below does not apply to pre-release versions.

| Sub-Processor | Country | Services Performed | Applicable VMware Service/Product | HQ Address | DPO contact | Data Transfer Mechanism |
|---------------------------|------------------|--|---|---|---------------------------|------------------------------|
| Amazon Web Services, Inc. | USA Australia | Hosting provider and platform services | VMware Edge Network Intelligence, VMware Edge Network Intelligence Client App, and VMware Edge Network Intelligence Crawler (cloud services) VMware Edge Network Intelligence Private Cloud Appliance (on-premise) | 410 Terry Avenue North Seattle, WA/98109 United States of America | aws-EU-privacy@amazon.com | Standard Contractual Clauses |

| | | | | | | |
|---------------------------|-----|---|---|---|---------------------------|------------------------------|
| Amazon Web Services, Inc. | USA | SMS Messaging and Email Notification Services | VMware Edge Network Intelligence, VMware Edge Network Intelligence Client App, and VMware Edge Network Intelligence Crawler (cloud services) VMware Edge Network Intelligence Private Cloud Appliance (on-premise) | 410 Terry Avenue North Seattle, WA/98109 United States of America | aws-EU-privacy@amazon.com | Standard Contractual Clauses |
|---------------------------|-----|---|---|---|---------------------------|------------------------------|

VMware may use additional sub-processors for customer support – see the sub-processor listing for [VMware Support Services](#).

If you would like to receive updates to this sub-processor list, please go <http://pages.cloud.vmware.com/sub-processor-communications>, and enable notifications for this sub-processor list.
