VMware products are subject to U.S. export controls as enforced by the U.S. Department of Commerce, Bureau of Industry and Security ("BIS"). Product classifications consist of an Export Commodity Classification Number (ECCN) and a Harmonized Tariff Schedule (HTS) number. The ECCN and HTS numbers listed are subject to change. It is the obligation of the exporter to comply with applicable U.S. export control laws, and to provide classification information at the time of export. VMware makes no representation as to the accuracy or reliability of these classifications, and is in no way responsible for any damages or penalties as a result of using or relying upon such information.
