

vCloud Director 5.6 Upgrade Path and Configuration Maximums

Upgrade from vCloud Director 5.1.3, 5.5.0 and 5.5.1 is supported. For earlier versions, customers can first upgrade to 5.1.3 or 5.5.0 and then upgrade to vCloud Director 5.6.

Configuration Maximums are listed in [KB 2090718](#)

vCloud Director 5.6 for service providers will be generally supported through 10/6/2016.

vCloud Director 5.6 Interoperability Matrix
