

VMware Infrastructure Jumpstart with Physical to Virtual Migrations

Overview

This consulting engagement will provide you with an on-site proof-of-concept configuration and knowledge transfer of VMware Server and VirtualCenter, as well as physical to virtual migrations using VMware Converter. This 4-day jumpstart maximizes your time and dollars by adding physical to virtual migration activities to the ESX Server with VirtualCenter workshop.

Deliverables

- On-site installation of up to two ESX Server hosts, one VirtualCenter Server and Converter
- Interactive proof-of-concept on physical to virtual migrations using VMware Converter
- Provide best practices and knowledge transfer

Target Audience

- Architects and administrators new to VMware ESX Server, VirtualCenter and Converter

Roles and Responsibilities

- **VMware Certified Professional Consultant**
Conducts workshop, which includes installation, best practices knowledge around configuration, administration and ongoing management presented over the course of the workshop
- **Customer Project Manager**
Plans and coordinates all IT functions
- **Customer Systems Administrator**
Responsible for server hardware, storage, and networking
- **Customer Server Administrator**
Responsible for operating system and applications

Business Continuity Add-on

A one-day Business Continuity Add-on is also available to help you better understand and explore business continuity strategies to increase availability and shorten response times when faced with service disruptions and disasters.
