The Total Economic Impact™
Of VMware vRealize Network Insight

Through four customer interviews and data aggregation, Forrester concluded that VMware vRealize Network Insight has the following three-year financial impact.

SUMMARY OF BENEFITS
Three-year risk-adjusted

- $1.8M NPV
- 477% ROI
- <3 month PAYBACK

VMWARE VREALIZE NETWORK INSIGHT BY THE NUMBERS

Organizations reduced time spent toward conducting network flow analysis by 80% through use of the platform.

Organizations saved time on creating security policies with the automation of firewall rule generation through flow analysis.

Users avoided 95% of time previously spent addressing network errors through NSX health checks feature.

VOICE OF THE CUSTOMER

"Since adding vRealize Network Insight, we have moved from being reactive to proactive when addressing network disruptions and preventing them from becoming a bigger problem."

Infrastructure and virtualization lead, healthcare

"The platform makes it very easy to go in and say, 'I want to figure out how two different VMs talk to each other.' Then I can type in a search query and get a basic representation with as many details as I want."

Systems architect, financial services

This document is an abridged version of a case study commissioned by VMware titled: The Total Economic Impact Of VMware vRealize Network Insight, July 2019.
