VMware Cloud Foundation License Portability – List of Certified Cloud Providers

This page is the official list of Broadcom certified cloud service providers offering VCF cloud services eligible for License Portability (BYOL or BYOS) of VCF and applicable Add-ons*. For VCF offerings, reach out to your cloud service provider to verify region availability, and for more information please [contact your local salesperson](#).

NOTE: This list is not exhaustive for License Portability endpoint destinations. For non-VCSP or non-MaaS partners not listed on this page, refer to the [Broadcom Compatibility Guide](#) to verify that the underlying infrastructure of the endpoint is technically capable of running VCF.
