## RPMs Updated

The following Service Console RPMs are updated in ESX Server 3.5 Update 2. They originate from RHEL 3.0 Update 9. A few RPMs have been patched by Red Hat after the release of RHEL 3.0 Update 9. Those security patched RPMs have been included in this distribution.

Be sure to test any customizations you make to these RPMs or scripts that run in the service console after the upgrade.
