VMware HTML Console SDK 1.0.0 Release Notes

Release date: 15 SEP 2015

About VMware HTML Console SDK

VMware HTML Console SDK allows you to add virtual machine console functionality to an existing web user interface running on VMware vSphere and vCloud Director\(^1\). Through the functionality enabled by the SDK, users can interact with the virtual machine console through keyboard and mouse input.

VMware HTML Console SDK provides APIs with the following functionality:

- Mouse and keyboard functionality in the VM
- Send Ctrl + Alt + Delete
- Full screen mode
- Support for Japanese client and guest keyboards

Requirements

VMware HTML Console SDK has been tested with the following Web browsers:

- Google Chrome 30+
- Microsoft Internet Explorer 10+
- Mozilla Firefox 24+
- Safari 6.1+

Known Issues

VMware HTML Console SDK does not support international keyboards other than Japanese.

\(^1\) *In this release of the HTML console SDK, vCloud Director APIs are in tech preview.*
